BODDINGTON'S GARDEN GUIDE

AUTUMN

1910

Thompadinyard

The Secret of Bulb Culture

By WILHELM MILLER, Editor of the "Garden Magazine"

VERY year we Americans spend about two million dollars for bulbs, without realizing the one fundamental fact about them that makes for quality. While we can increase the size of the flowers and profoundly affect the depth and purity of their colors by cultural skill, all the time, money and loving care that we bestow upon them will never increase the number of flowers.

That is all determined when we buy the bulbs.

To convince ourselves of this, all we have to do is to cut open a bulb and, if we have patience and a good magnifying glass, we can count every blossom which that bulb had the possibility of making.

The moral is obvious: pay more and get better bulbs. For there is no comparison between the pleasure

Planting Table for bulbs

one gets out of a bulb that gives us one solitary daffodil and a bulb that produces three to five of these glorious golden trumpets, each flower of which measures four inches across.

The kind of crocuses you usually buy produce only two or three flowers. A first-size crocus bulb should measure three inches in circumference and produce four to six flowers. And so it goes. You may lavish daily care for months upon an ordinary hyacinth bulb and you will never have anything that you

can show with pride to your neighbors. But think of a hyacinth with eighty-three bells! That would be something to exclaim over. You wouldn't have to apologize to your callers for the condition of your flowers. You wouldn't have to "wonder why" they were not better. The "secret" of bulb culture is that charming little mystery wrapped up in the heart of every bulb—the number of flowers it intends to show.

How can one tell a quality bulb? As a rule, the bigger the bulb, the more the flowers and the higher the price, but—that isn't all! You want a bulb that is heavy for its size. It is the solid, close-grained bulb that has the hardiness to resist wet and cold; it is the loose, sappy one that falls an easy prey to disease.

The other secret of bulb culture is to get a wonderful root growth in the fall before the stem begins to shoot up. A cool, dark place will fix that. Bulb culture is really "too easy." Beginners do sometimes fail, but that is usually because they put the bulbs in too heavy soil. Bulbs have one weak point. They are sensitive to stagnant water. Put a little sand under each bulb, if you are in doubt, or, better still, throw out the heavy soil to the depth of two feet, put in a layer of broken bricks or stones for drainage and fill in with good soil. And so I say the real secret of bulb culture is to buy the very best bulbs. It costs the Dutchmen more to raise first-class bulbs than ordinary bulbs, and we can never expect to have quality flowers unless we pay a fancy price. The price of bulbs is too cheap in this country. Our standards are too low. The prices of general merchandise have advanced all along the line. (Everybody knows that. We all know that the cost of living is higher.) Bulbs and seeds and plants have not advanced, but they must, because our standards are advancing. The American people want the very best of everything, and they are willing to pay for it if the thing is so much better that every one can see it at a glance.

May-flowering Tulips, Pansies and Daisies in the Spring Garden

OF MRS. D. WILLIS JAMES, MADISON, N. J.

ANY people object to planting bulbs in the fall, outside, from the fact that when the blooming season arrives they are away, or living in the city. The above illustration of a beautiful spring garden was photographed about the end of May, and shows what effective beds of flowers can be produced at that season of the year. When a large proportion of owners of estates are returning to their country homes, or visiting prior to leaving the city, what more lovely sight could greet the eye than this mass of color and beautiful effects in a setting of the new spring.

The above beds and borders contain some of the rarest of Darwin and May-flowering Tulips, that are at their height of glory during the last two weeks of May; in the other beds are Myosotis (Forget-me-nots), Bellis Perennis (English Daisies), Polyanthus (Bunch Primroses), and Pansies, the whole conforming to a beautiful color scheme and perspective beauty.

We cannot too strongly advise the making and planting of such a magnificent formal garden, and shall be pleased to correspond with those interested, as to varieties, etc., for this style of landscape work, or the less-expensive method of planting bulbs for the wild garden—the kinds for naturalization and acclimatization.

"QUALITY" BODDINGTON'S HYACINTHS

Boddington's "Quality" Top-root Hyacinth L'Innocence

Boddington's "Quality" Miniature Hyacinths

Boddington's "Quality" French Romans

Although the flowers of the French Roman Hyacinths are smaller than those of the Dutch Hyacinths, they can be forced much earlier into bloom, are more fragrant and bear a greater abundance of flower-spikes than the Hollandgrown bulbs. These can be forced for a continuance of bloom all winter and

are unsurpassed for cut-nower purposes.	Doz.	100	1.000

Boddington's Dutch Romans, or Miniatures

These are small bulbs, or miniature Dutch Hyacinths (see illustration above), and are now very largely used for growing in pans or pots. They are also used extensively for bedding purposes, as they produce large spikes of flowers. We can specially recommend our "Quality" Dutch Romans to those who have never grown them, and therefore do not know their value. They consist of named sorts, similar to regular first-size Dutch Hyacinths, of the finest grade and true to name. 12 to 15 centimeters.

Boddington's Extra-Selected Named Dutch Hyacinths

CULTURAL DIRECTIONS

HYACINTHS IN POTS.—It is important in the pot culture of Hyacinths to have rich, light soil. If the bulbs are to be potted singly, pots 5 inches in diameter are the proper size. Cover the hole in the pot with a piece of broken pot, and over this place a layer of moss, which will keep the soil from clogging the drainage thus provided. Break off any offsets which appear at the base of the bulbs, and, in potting, place each bulb so that its top shall be half an inch below the surface of the soil and an inch below the rim of the pot. The soil should be of usual natural moisture, and should be pressed moderately firm. The filled pots may be placed in a coldframe where there is protection from frost or in the coolest part of the cellar, and well watered. An excellent plan is to place them on a bed of moist sifted coal sahes, covering the pots to a depth of 6 inches with the same material. When well rooted, which will be in about ten weeks, the bulbs may be brought indoors and forced. For the first two or three weeks they should be kept in a temperature not exceeding 50 degrees. Success in forcing depends much on their having strong roots before being brought to the light. The top grows rapidly, and unless the roots are started much in advance they are unable to nourish the plant, and failure results.

Hyacinths for early use may be potted in September or October. When desired for late use, it is better to pot them in October and keep them in a coldframe or cellar above freezing until it is desired to force them into bloom. To obtain dwarf foliage and fine flower-spikes, Hyacinths, when being forced, should have plenty of manure-water and fresh air, and should have as much light as possible. The blooms last much longer if shaded from the sun after they show color.

HYACINTHS IN GLASSES.—The single varieties are with a few exceptions, best adapted to this mode of culture. They produce finer HYACINTHS IN POTS.—It is important in the pot culture of Hyacinths to have rich, light soil. If the bulbs are to be potted singly,

HYACINTHS IN GLASSES.—The single varieties are, with a few exceptions, best adapted to this mode of culture. They produce finer flower-spikes than the double. Fill the glass with clear soft water, so as nearly to touch the base of the bulb, putting a small piece of charcoal in each glass to keep the water pure and afford some nourishment. The filled glasses should be placed in a dry, cool, dark place, and kept there until the roots almost touch the bottom of the glass, when they may be exposed gradually to the light. If the water in the glasses foul or diminished, replace it with fresh water at about the same temperature as the atmosphere in which the bulbs are growing; otherwise it need not be changed. When well started, the bulbs should have plenty of light and air, without drafts, in order that the best development and brilliancy of color may be obtained. Intending purchasers can rely upon all bulbs of Hyacinths being thoroughly ripened, fully up to specified size and "quality," and true to name.

Boddington's Extra-selected "Top-root," or Exhibition Named Dutch Hyacinths in a General Selection

The term "top-root" is a Holland phrase, and is used to distinguish the size of the Hyacinth bulb from the first size; in fact, they are the largest bulbs selected after harvesting the crop, and are the "pick of the market." These bulbs are excellent for exhibition purposes, to grow singly in pots or Hyacinth glasses.

Boddington's "Quality" Bedding Hyacinths to Color

Bedding Hyacinths should be planted about 8 inches apart each way—or, say twenty to the square yard—and 4 or 5 inches deep, reckoning from the top of the bulb. The actual number requisite for a given area, however, must be determined in every instance by the local conditions and the object in view; a large bed in the distance need not be so closely planted as a small bed in the immediate foreground, and of course a smaller number will be necessary in either case if a ground-work such as Myosotis, Silene or Arabis be provided. Hyacinths planted alternately with Narcissi produce a very striking effect, and for this combination 6 inches from bulb to bulb is a suitable distance.

The following Hyacinths, although offered at very low prices, have all been imported by us from Holland this year and can be strongly recommended for their high quality. They are specially adapted for groups in borders and shrubberies, where they will give a brilliant display of very handsome flowers; but for beds, where simultaneous flowering and uniformity of shade are of importance, we recommend

the Superlative Hyacinths offered below.

Boddington's Superlative Named Bedding or Forcing Hyacinths

SOLD BY SOME SEEDSMEN AS SECOND SIZE

These are a superior grade of Bedding or Forcing Hyacinths, being large-sized named bulbs of 17 centimeters and over. For size of flower and general effect when massed in beds they are unsurpassed. These bulbs are offered to name and color. The same varieties as

the first and second size is offered in this Catalogue.

Single Hyacinths produce finer spikes, and are altogether more reliable and showy in the open ground, than double varieties; hence the following list includes none but singles. For extensive conservatory or greenhouse decoration these Hyacinths will give great satisfaction to those who do not wish to incur the expense which is unavoidable for a large selection of named varieties.

Boddington's Superlative Scarlet. Finest selected bulbs. 75 cts. per doz., \$5

Not less than 25 of one variety will be charged at the rate quoted per 100, or three at dozen rate. If any of the above are wanted by mail, add 10 cts. per doz. for postage

BODDINGTON'S

FOR BEDDING OR FORCING (FIRST SIZE BULBS ONLY)

There is one important difference between Hyacinths and Tulips. Under similar treatment most Hyacinths flower about the same time; while Tulips come into bloom at successive periods. The divergence has frequently been the source of much disappointment, for, in a bed (or even a vase or pot) planted with different Tulips, one variety may be overblown before others show their colors. For brilliant bedding effects, solid masses of color are to be preferred, especially for design bedding.

For cultural directions under glass, see Hyacinths, page 3. The treatment to be followed is exactly the same. Tulips for-bedding should be planted about 6 inches apart and about 4 inches deep, reckoning from the tops of the bulbs.

The figures following the varieties indicate earliness in flowering: No. 1 being the earliest; No. 2 following; No. 3 being still a little later, but coming into bloom before the No. 2's are out. The height is indicated by "D" for dwarf, "M" for medium and "T" for tall.

BODDINGTON'S "QUALITY" SINGLE LATE OR MAY-FLOWERING TULIPS

For Planting Among Herbaceous Plants and Formal Borders of Shrubbery, etc.

It is surprising that these grand Tulips have not been more largely planted. As an early display, they are magnificent in their beauty and coloring, coming into flower, as they do, from May 15 to the first week in June, according to the season, and are most useful from a decorative point of view, after the early-flowering Tulips are past. The colors are various, as described in the following varieties, and their height, after being well established, reaches nearly three feet in some types. After planting, they need not be disturbed for years, and fill in the space until spring plants can be set out in beds. There are many more beautiful late-flowering Tulips, but the following are a few of the most distinct varieties. No pretentious garden, or public park where flowers are grown extensively under appropriate surroundings, should be without a selection of them, for they afford immense enjoyment to large numbers of people, as we know from experience.

	Doz.	100	1,000
Bizarres. Handsome, rich flowers, with yellow			
ground, feathered or striped with crimson,			
purple and white; finest mixed	0 25	\$I 50	\$14 00
Bybloems (Violets). Late Tulips, with white			
ground, blotched, striped or feathered with			
lilac, purple, violet, blue or black; finest mixed	25	1 50	14 00
	_	_	
Bybloems (Roses). Superfine mixed	25	I 50	14 00
Bouton d'Or. Has deep clear yellow, globular,			
medium-sized blossoms, with curious black-			
anthered stamens	20	I 25	12 00
Darwins. Very large flowers of good shape, on			
tall, strong stems; for brilliancy of color they			
surpass any other Tulip; they include every			
known shade from the lightest tint to the			
brightest hue; finest mixed. (For named varie-			
		7 05	¥0.00
ties, see page 10)	20	1 25	10 00
La Merveille. A magnificent variety with very			
large sweet-scented blossoms. Salmon-rose			
overlaid with orange-red. A grand border			
variety	25	I 25	12 00

	oz.	100	1,000
Isabella, or Shandon Bells. This also is one of those varieties of which a description fails to give a correct idea of its beauty. The petals are a rose-color, flushed or flaked with white when they first open, and after two or three days it changes to a suffused deep rose and red color. Remains longer in bloom than many	oz.	100	1,000
	0=	Ø	Ø*** ***
others, and stands well when cut\$0	25	\$1 25	\$12 00
Gesneriana spathulata, or major. This va-			
riety has long been in cultivation. The beau-			
tifully curved flowers are brilliant scarlet, with			
a bluish-black center, on tall stems. A large			
group of this Tulip massed by itself looks very			
striking. There are a number of forms of this			
Tulip lately sent out, and a few of them are			
very high-priced, but hardly any of them excel			
the type in genuine beauty	35	I 75	15 00
Gesneriana macrospila. Crimson-scarlet,			
black and yellow center	20	I 25	12 00
Golden Crown. Is a showy and attractive va-			

riety, with a rich deep yellow color, and the petals edged and tinged with red. It blooms about the same time as Gesneriana major. 20 cts. per doz., \$1.25 per 100, \$10 per 1,000.

Golden Eagle. Is a showy and attractive variety, with a rich deep yellow color, and the petals edged and tinged with red. It blooms about the same time as Gesneriana major. It forms a pleasing combination with the latter, and when grouped so that they meet in curving lines they give a fine color effect. 20 cts. per doz., \$1.50 per 100, \$14 per 1,000

Maiden's Blush, or Picotee. Clear white, margined on the edge with pink. The flower is beautifully curved, but it is somewhat difficult to give a correct idea of the color. When it opens, the petals are white and margined or penciled with pink to cerise. After two or three days the flowers change to a deep rose, and, unless one is acquainted with it, it would not be recognized as the same Tulip. It stands remarkably well when cut, and gracefully arranged. 20 cts. per doz., \$1.25 per 100, \$12 per 1,000.

Mrs. Moon. The finest late yellow heautifully reflexed petals.

Mrs. Moon. The finest late yellow, beautifully reflexed petals. A charming variety. 75 cts. per

doz., \$6 per 100.

Striped Beauty. Rose flaked, deep crimson and white, immensely pretty. 50 cts. per doz., \$4 per 100.

Boddington's "Quality" Superfine Mixture May-flowering Tulips, for acclimating and for planting in herbaceous or shrubbery borders. 25c. per doz., \$1.25 per 100, \$10 per 1,000.

Single Late May-flowering or Decoration-Day Tulips

Hollandia Collection of Single Late May Flowering Tulips

The following unique varieties are the cream of over one hundred varieties, especially imported by us for trial in our grounds, and we consider them the most perfect of this lovely type both in form and color. Some will attain a height of nearly 4 feet in one season, and once planted in the border will increase and bloom for years.

May-flowering Tulips

Picotee or Maiden's Blush Tulips

CALEDONIA. Bright orange, very beautiful variety. 5 cts. each, 35 cts. per doz., \$2.25 per 100, \$20 per 1,000.

GESNERIANA LUTEA. Beautiful vellow, tall and handsome. 5 cts. ea., 40 cts. per doz., \$2.50 per 100, \$23 per 1,000.

CYCLOPS. Beautiful scarlet, with yellow center and black anthers; very distinct. 25 cts. each, \$2.50 per doz., \$20 per 100.

ELLEN WILLMOTT. Undoubtedly the finest May-flowering Tulip; flowers very large, beautiful form and of a soft creamy yellow; very fragrant. 15 cts. each, \$1.25 per doz., \$10 per 100.

DON PEDRO. Coffee-brown, shaded maroon, inside mahogany with dark brown center. 20 cts. each, \$2 per doz., \$15 per 100.

CYGNET. Beautiful snow-white, with black anthers. 25 cts. each, \$2.50 per doz., \$20 per 100.

INGLESCOMBE SCARLET. Very brilliant scarlet, black base; a grand variety. 25 cts. each, \$2.50 per doz., \$20 per 100.

INGLESCOMBE YELLOW. A large canary-yellow flower of perfect form, glossy and very beautiful. 15 cts. each, \$1.50 per doz., \$12 per 100.

INNOVATION. White, flushed and splashed crimson; the largest Tulip in existence. 50c. ea., \$5 per doz.

LUCIFER. Bright terra-cotta-orange, very pretty. 25 cts. each, \$2.50 per doz., \$20 per 100.

LOUIS XIV. Flower of immense size with broad petals, rich purple heavily flushed golden bronze shading to bronzy purple; very tall and beautiful. 35 cts. each, \$3.50 per doz., \$25 per 100.

PRIMROSE BEAUTY. Color soft primrose, changing to white. 10 cts. each, \$1 per doz., \$7.50 per 100.

QUEEN ALEXANDRA. A beautiful late Tulip; flower of fine form, soft sulphur-yellow, with black anthers. 35 cts. each, \$3.50 per doz., \$25 per 100.

THE FAWN. Very large oval flower, light grayish rose changing to soft rosy white. 10 cts. each, \$1 per doz., \$8

COLLECTION .- One each of the above 14 beautiful and unique varieties for \$2.50.

BODDINGTON'S "OUALITY" DARWIN TULIPS, ETC.

Darwin Tulips (to name)

Darwin Tulips are among the most varied and beautiful of all the Planted in the herbaceous border they make a great show in late May and June. Flowers are large and borne upon tall, erect stems. To secure the best effect, plant 5 to 20 bulbs in a group or bed the same as the early varieties.

Boddington's Inimitable Mixed Bedding Tulips to Color

The following mixed Tulips to color contain a superior mixture, but are not to be compared with the named varieties. They do not flower at the same time, but make an excellent show; varied and pretty

Single Yellow, Red, Rose or White (separate). 15 cts. per doz., \$1.25 per 100, \$10 per 1,000.

If Tulips are wanted by mail. add at the rate of 5 cts. per doz. for postage

Boddington's "Quality" Superfine Mixed Tulips

SINGLE. This mixture is made up of equal proportions of the best bedding Tulips, comprising a variation of color and shades that makes them very effective when massed in beds, 20 cts. per doz .25 per 100, \$10 per 1,000.

DOUBLE. This mixture comprises only the best bedding varieties in equal proportion and contains a splendid assortment of showy

colors. 25 cts. per doz., \$1.50 per 100, \$12 per 1,000.

Boddington's Fine Mixed Double Tulips

An excellent mixture for outdoor planting, 20 cts, per doz., \$1 25 per 100, \$10 per 1,000.

Boddington's Fine Mixed Single Tulips

A mixture of good bedding Tulips for planting. 15 cts, per doz., \$1 per 100, \$8 per 1,000.

Parrot, or Dragon Tulips

These Tulips are of immense size and are rightly named, and present occasional shades and markings that are truly marvelous. They are well worth growing in borders for the interest their showy flowers afford.

Admiral de Constantinople. Large; red, yellow edge. 20 cts. per doz., \$1.50 per 100, \$14 per 1.000.

> Cramoisie Brilliant. Rich blood-crimson, with bluish markings. 20 cts. per doz., \$1.50 per 100, \$14 per 1,000.

> Couleur Cafe. 20 cts. per doz., \$1.50 per 100, \$14 per 1,000.

Lutea major. Large; showy yellow. 20 cts. per doz., \$1.50 per 100, \$14 per 1,000.

Markgraaf von Baden. Red and yellow, orange inside; very showy. 20 cts. per doz., \$1.50 per 100, \$14 per 1,000.

Perfecta. Yellow, striped red. 20 cts. per doz., \$1.50 per 100, \$14 per 1,0co.

Boddington's "Quality" Superfine Mixed Parrot Tulips

15 cts. per doz., \$1.25 per 100, \$9 per 1,000

100 Parrot Tufips in 5 choice varieties for \$1.50.

50 Parrot Tulips in 5 choice varieties for 85 cts.

25 Parrot Tulips in 5 choice varieties for 50 cts.

12 Parrot Tulips in 4 choice varieties for 25 cts.

Tulipa Greigi

An exceptionally handsome and distinct early-flowering Tu-lip. The beautiful formed flow-ers are of large size and of a gorgeous orange-scarlet color, so brilliant as to at once attract the attention. The plant is quite or-namental on account of its broad, spotted foliage, very choice. 13c. each, \$1 per doz., \$7.50 per 100.

Narcissus, Paper White Grandiflora Multiflora

Narcissi and Daffodils

Narcissi and Daffodils are among the earliest-flowering bulbs, and are alike useful for cut-flowers and decorative purposes. The most useful for early forcing is the well-known Paper White Narcissus varieties Grandiflora and Multiflora. They are pure white, chaste and beautiful, and are borne on long stems, sometimes as many as fifteen to a stem.

CULTURAL DIRECTIONS.—Plant bulbs in shallow pans or boxes, about 2 inches apart, and store in cellar or shed till thoroughly rooted. Do not allow frost to reach them. If wanted for Christmas, bring into the light about the second week in November, and after that successively (about a month to six weeks), and you will have Narcissus in bloom till nearly Easter. For general cultivation of Narcissus under glass, see Hyacinths, page 3.

Paper White Narcissus can also be grown in water with pebbles in shallow dishes and bowls, the same as the Sacred Chinese Narcissus

Paper White Narcissi

Grandiflora. Well-known; large bulbs. 40 cts. per doz., \$2 per 100, \$15 per 1,000. Grandiflora multiflora. A

Grandiflora multiflora. A great improvement over Grandiflora; vigorous grower with fine spike, which carries larger trusses, and in greater abundance than the old varieties. 50 cts. per doz, \$2.50 per 100, \$20 per 1,000.

Polyanthus Narcissi, or Nosegay Daffodils

Double Narcissi, or True Daffodils

bulbs. 40 cts. per doz., \$2.75 per 100, \$25 per 1,000. Extra first size bulbs. 40c. per doz., \$2.50 per 100, \$20 per 1,000.

First size bulbs. 25c. per doz., \$1.50 per 100, \$12.50 per 1,000. Alba plena odorata (Gardenia-flowered Daffodil). Double snow-white flowers; very sweet-scented; lateflowering. 20 cts. per doz.,

flowering. 20 cts. per doz., \$1 per 100, \$9 per 1,000. Incomparabilis fl. pl. (Butter and Eggs). Rich yellow and white; double; good forcer or for outside. 20c. per doz., \$1.50 per 100, \$12.50 per 1,000.

Double Daffodil, Von Sion

\$1.50 per 100, \$12.50 per 1,000.

Orange Phoenix (Bacon and Eggs). Beautiful white and orange Narcissi. 25 cts. per doz., \$1.75 per 100, \$15 per 1,000.

Sulphur, or Silver Phoenix (Codlins and Cream). Creamy white, with pale sulphur

Sulphur, or Silver Phoenix (Codlins and Cream). Creamy white, with pale sulphur center. 40 per doz., \$2.50 per 10, \$20 per 1,000.

Boddington's Quality Double Mixture. Grand for bedding or naturalizing.

Boddington's Quality Double Mixture. Grand for bedding or naturalizing 20 cts. per doz., \$1.25 per 100, \$10 per 1,000.

If wanted by mail, add 8 cts. per doz. for postage on Double Daffodils

Paper White Narcissi, as grown in a bowl

CHINESE SACRED NARCISSUS

(Joss Flower, or Oriental New Year's Lily)

These may be grown in pots, but are more interesting and very satisfactory in bowls partially filled with pebbles and water. Flowers mostly white with yellow cups; very fragrant. Extra selected bulbs, 10c. each, \$1 per doz. By mail, add 5c. each for postage.

SINGLE TRUMPET NARCISSI

The commercial florists have been foremost to give the Narcissi or Daffodils the attention due them. They have learned how easily and successfully these levely flowers may be forced into bloom during winter, and how fascinating and lasting are the blossoms. They may be planted in pots or bulb pans 6 inches or more in diameter, several bulbs in each, according to size. Treat in the same manner as hyacinths.

New Narcissus Poetaz Hybrids

N. Poeticus Ornatus×N. Polvanthus Varieties

By crossing these two classes. Narcissus Poeticus Ornatus being the seed parent, our growers have succeeded in obtaining a perfectly hardy strain of bunchflowered Narcissus. The individual flowers have all more or less the Poeticus shape and size. Besides being hardy, this class has the merit that they have not inherited the strong, disagreeable scent of the Tazetta Narcissus. They are equally valuable for bedding and forcing. A bed of these Narcissi is simply covered by a dense mass of flowers. They force extremely easy. This is an entirely new strain and has no similarity with varieties of Narcissus known heretofore. The following we consider the best of this lovely type.

Alsace. Petals pure white, with yellow eye; when bursting into flower the eye is slightly edged reddish. Broad large flowers of true Poet form; one of the earliest. Has three flowers on a stem. 5 cts. each, 40 cts. per doz., \$2.75 per 100, \$25 per 1,000.

Elvira. Pure white, with yellow eye; large flower of a remarkably good substance. Long-stemmed and a good keeper; four flowers on a stem. Highly recommended. 5 cts. each, 25 cts. per doz., \$1.75 per 100, \$16 per 1,000.

Ideal. Perianth white, with dark orange eye; large truss bearing six to seven flowers; beautiful striking color. 5 cts. each, 50 cts. per doz., \$4 per 100, \$35 per 1,000.

All of the Jonquils are prized for their graceful, golden, fragrant blossoms and the ease with which they may be grown. Half a dozen bulbs may be put in a 5-inch pot, and with the same treatment as recommended for Hyacinths (see page 3) a fine display can be had from January to April. Their cost is so trifling that liberal planting should be made outdoors. A clump of fifty or more bulbs put here and there among shrubbery or interspersed in the hardy border or naturalized in the grass, gives an indescribably rich effect in the early spring, while a vase of the cut blooms will fill a room with the rich, spicy perfume. Doz. 100

Double Sweet-scented. Fine deep yellow.. \$0 40 \$2 75 \$25 00 Single Sweet-scented. Deep yellow 15 1 00 Campernelle. Large yellow 15 1 00 8 50 Rugulosus. Very fragrant; large Jonquil 25

Narcissi and Daffodils

FOR NATURALIZING, BEDDING, ETC.

For producing brilliant masses of striking color in the mixed border, among shrubs, under trees, or for grouping in grass, the following varieties of Narcissi are unequaled, while they specially claim the attention of amateurs for their hardiness and accommodating qualities. Clumps should be grown in odd corners to furnish flowers for decorative purposes. When cut just as they begin to expand, the flowers develop their full beauty in water as perfectly, and retain their brightness for as long a period as when allowed to remain on their own plants. Pansies, myosotis, scillas, and other low-growing plants and bulbs make lovely companions for these popular Narcissi.

BODDINGTON'S "QUALITY" MIXTURE OF SINGLE NARCISSI

This mixture does not contain the very cheapest sorts, and will be found very fine. 20 cts. per doz., \$1 per 100, \$9.50 per 1,000.

If wanted by mail, add 5 cts. per doz. for postage on Mixed Narcissi

Lilies for Growing and Forcing Under Glass, in the Greenhouse, Conservatory or Sunny Window

Lilies should be potted immediately upon receipt, Lilies should be potted immediately upon receipt, if intended for growing in pots or for forcing. The soil should be rich, the pot well drained. The bulb should be set about half-way below the surface or rim of the pot and lightly covered with soil. After potting, give a thorough watering and set outside in a cold-frame or shady situation; then cover with ashes or long straw. After they have stood from three weeks to a month, bring into the house, allow plant to grow above pot 4 to 6 inches, then fill pot with soil to within 1 inch of top of pot, and force gently. After showing buds, a higher temperature may be used.

Lilium Harrisii, or True Bermuda Easter Lilv

Owing to a continued drought in Bermuda, lasting from March till "digging time," the crop of Harrisii (true) shows a shortage of over 50 per cent in the sizes 7 to 9 and upward. We had the opportunity to buy 7 to 9 and upward. We nad the opportunity the hybrids at a cheaper rate, but promptly turned it down. At this date we hope to fill our advance orders, but will have practically no surpluses of our Quality Brand True Harrisii, except in sizes 5 to 7 and 6 to 7. This also applies to Lilium Jamesii. Lilium Jamesii

A new Easter Lily raised by Mr. R. H. James, of Bermuda, and is a cross between Lilium Harrisii and

Lilium candidum, or Annunciation Lily

Lilium Harrisii, grown by Mr. Harry Turner, gardener to Howard Gould, Esq., Castle Gould, Port Washington, L. I., N. Y.

JAPANESE EASTER LILIES

The Lilium longiflorum, or Japanese Easter Lily, is, in reality, the parent of the Lilium Harrisii, or Bermuda Easter Lily, and is grown more extensively than this variety by the florists, owing to the shortage of the larger sizes of L. Harrisii this season. We recommend and suggest to intending purchasers that, where the large bulbs are desired, they buy the L. longiflorum, of which we offer three varieties, as follows:

Lilium Longiflorum Formosum (Japan-grown)

	w Easter Lily from the island of	Formosa.	Easy to	grow
and free from disease.		Each	Doz.	100

LILIUM CANDIDUM (St. Joseph, or Annunciation Lily)

This is the old-fashioned garden Lily. Can be forced for Easter and is perfectly hardy, blooming in the open ground in June. The many snow-white flowers, borne on a stem 3 to 4 feet high, make this Lily most effective. Very large bulbs, ready for delivery in September. 10 cts. each, \$1 per doz., \$8 per 100.

Boddington's "Quality" Lily-of-the-Valley

Lily-of-the-Valley is among the best-known and most popular flowers, and is chaste and beautiful for all occasions. We make arrangements for only the best-ripened and matured three-year-old pips.

New crop of Lily-of-the-Valley should always be frozen before forcing Boddington's "Wedding Bells" brand, being specially selected, is superior for first crop; will convince the most critical grower of its superiority over brands usually offered for early forcing, the foliage and flower-spike being all that can be desired. \$2.25 per 100, \$20 per 1,000.

Lily-of-the-Valley from Cold Storage

We import large quantities of the best grade of Valley for forcing, which are put in cold storage immediately upon arrival and kept perfectly dormant, These pips can be shipped at any day of the year and can be brought into full flower in three weeks from time of planting without undue forcing, and with foliage. We recommend these for flowering before and up to Christmas. They should be potted or boxed as soon as received, and be placed in a temperature of 55° or 60°. \$3 per 100, \$25 per 1,000.

CALLA AETHIOPICA (CALLA LILY)

Too well known to need description. We offer	a very	fine lot	of dry
roots, all with center shoots ready for forcing.	Each	Doz.	100

FREESIA REFRACTA ALBA, ETC.

Of all South African flowering bulbs, the Freesia is doubtless the best known and most esteemed. The gracefully branched, fragrant flowers are of long duration, and, being freely produced, are profitable for commercial purposes, and satisfactory to amateurs. If planted early they may be had in bloom by Christmas. Plant eight or ten bulbs in a 6-inch bulb-pan, covering them one inch. The peculiar habit, its delicious perfume and great value for cutting, have made it immensely popular.

Large bulbs. 15 cts. per doz., \$1.25 per 100, \$10 per 1,000.

Mammoth selected bulbs. 25 cts. per doz., \$1.75 per 100, \$15 per 1,000.

Monster bulbs. 35 cts. per doz., \$2.25 per 100, \$20 per 1,000.

Freesia Leichtlinii. Primroseyellow, with orange blotch on each petal. 20 cts. per doz., \$1.25 per 100, \$10 per 1,000.

Boddington's "Quality" Lily-of-the-Valley

Freesia, Purity

A grand acquisition to the Freesias, and for the grower, as a cut-flower or pot-plant, no one should be without a few bulbs of this delightful novelty. Flowers, which are snowy white, of large size, are borne in great profusion on stems 2 to 2½ fect which grow upright and stiff; are excellent for cut-flower purposes. 50 cts. per doz., \$3.50 per 100, \$30 per 1,000; mammoth bulbs (very scarce), 75 cts. per doz., \$4.50 per 100, \$40 per 1,000.

Boddington's Pink Freesia

This is a remarkable variety, color soft rose, and exceptionally fragrant. Easily forced and grows as the white variety of which it is an excellent companion. Bulbs very scarce. 50 cts. each, \$5 per doz.

OXALIS

Lovely little bulbous plants for hanging pots and baskets. The bulbs should be planted an inch deep, six or eight in a 5-inch pot. They need a sunny situation.

GLADIOLUS COLVILLEI AND NANUS

Delivery in October and November

The "Colvillei" section should not be confused with the Gandavensis or large-flowering Gladiolus. The "Colvillei" has much more slender spikes and daintier flowers, which are very pretty for cutting and arranging in vases with ferns and other foliage. Florists often plant these in their carnation beds.

Delicatissima superba. (Novelty.) Pure white, bright large carmine blotch. 50 cts. per doz., \$3.75 per 100, \$35

Fairy Queen. (Novelty.) Carmine-red, white blotch, carmine-bordered. 20 cts. per doz., \$\(\)i per 100, \$\(\)7.50 per 1,000.

Fire King. (Novelty.) Orange-scarlet, purple blotch, purple-bordered; a beautiful variety. 50 cts. per doz., \$3.50 per 100, \$30 per

Pink Perfection. (Novelties.) Lilac-rose, white blotch, carmine-bord-ered. 20 cts. per doz., \$1 per 100, \$8 per 1,000.

The Bride (Covillei alba). This lovely white miniature Gladiolus makes a useful cut-flower for early spring use; will stand forcing. 15 cts. per

doz., \$1 per 100, \$8 per 1,000.

Blushing Bride. The most beautiful, delicate pink Gladiolus known for early forcing. It is sure to meet with great demand when better known.

20 cts. per doz., \$1 per 100, \$8 per 1,000.

Ackermanii. New. Salmon-orange, with white blotches, edged scarlet; very handsome. 20 cts. per doz., \$1.25 per 100, \$10 per 1,000.

15 cts. per doz., \$1 per 100, \$7.50 per 1,000. **St. Brigid.** Beautiful Irish-flowered Anemone. Colors from maroon and brightest scarlet to flesh-pink, and from lilac to purple. 25 cts. per doz., \$2 per 100.

ANOMATHECA cruenta. A very pretty, freesia-like plant for pot culture, growing about 9 inches high, with scarlet flowers, spotted with crimson. 15 cts. per doz., \$1 per 100.

ANTHOLYZA. Similar to gladiolus. Mixed varieties. 50 cts. per doz., \$3.50 per 100.

BABIANA. Charming spring-flow-greenhouse, with dark green, hairy leaves; in habit resembling sparaxis. The colors range from pale lavender and delicate pink to violet and crimson, and are very effective. Plant six or eight bulbs in a 6-inch bulb pan. Mixed varieties, many elegant colors 25 cts. per doz., \$1.50 per 100.

BESSERA elegans. Flower-stems from 1 to 2 feet, with loose umbels of beautiful drooping scarlet and white flowers. 10 cts. each, 75 cts. per doz., \$5 per 100.

CALLA Elliottiana. This is the great new Yellow Calla of marvelous beauty. Flowers are large, rich, dark golden yellow, often 4 to 5 inches across the mouth. Leaves are beautifully spotted with white. Bulbs of this variety are very scarce. Extra-large bulbs. 40cts. each, \$3.75 per doz., \$30 per 100.

Black (Arum Sanctum). This interesting variety from the Holy Land resembles in habit and foliage the White Calla, with flowers of a rich purple color over a foot in length and 4 to 6 inches across; the spike or spadix is about 10 inches long, and of an ebony-black color. 10cts. each. \$1 per doz.

For White Callas, see page 15.

BODDING TON'S BULBS BLOOM

IXIAS. The Ixia is beautiful little winter-flowering bulb, with low, slender, graceful spikes of bloom. The colors are rich, varied and beautiful, the center always differing in color from the other parts of the flower, so that the blossoms, expanding in the sun's rays, present a picture of gorgeous beauty.

Magnificent Named Varieties. In 12 grand sorts as follows:

lagnificent Nameu varieties. In 12 grand sorts as follows.
Azure. Azure-blue, large maroon eye.
Conqueror. Red, shaded yellow.
Crateroides major. Bright scarlet.
Emperor of China. Yellow, slightly tinged brown; large dark

eye.

Excelsior. Rich bronzy scarlet, outside deep crimson, small black eye; very strong and robust.

Galatea. Pure white, deep violet eye.

Iridiflora. A pretty tint of green.

Lady of the Lake. Magenta color, dark eye.

Lady Slade. Bright pink, slightly striped white.

Rosea plena. Double rose; an excellent variety.

Smiling Many. Bright pink

Smiling Mary. Bright pink. Snowdrop. White, blue eye.

10 cts. each, \$1 per doz., \$5 per 100; one each of the above 12 varieties for \$1

Choice Named Varieties. In 25 best sorts. 15 cts. per doz., \$1

Fine Mixed Varieties. 10 cts. per doz., 75 cts. per 100.

ORNITHOGALUM Arabicum (Star of Bethlehem). A beautiful variety, throwing up a tall spike bearing numerous large, milk-white, star-shaped flowers, with a black center, and having a distinct aromatic perfume. They are decidedly pretty and interesting when grown in the garden, but are more largely grown for greenhouse and window decorations, being of the easiest culture.

5 cts. each, 25 cts. per doz., \$1.50 per 100.

RANUNCULUS. Bodding. ton's Giant.

Gorgeous dwarf flower, easily grown in pots for winter blooming, or in coldframes for spring. Eight roots may be potted in a 6-inch bulb-pan; they should be covered one inch. The colors include shades of white, yellow, crimson and purple, some being almost block. being almost black.

Giant Double French. Mixed colors. 20 cts. per doz., \$1 per 100.

Double Persian. Mixed colors. 20 cts.

per doz., \$1 per 100. **Double Turban.** Mixed colors. 20 cts.

per doz., \$1 per 100.

SPARAXIS. Beautiful flowers about 2 inches across, borne on long, graceful spikes; the colors are of the most telling combinations and of the brightest shades. They are tigered, blotched, spotted, streaked and flushed in the most diverse and pleasing manner. The bulbs are not hardy, but do exceptionally well when grown in the conservatory or house in pots or in cold frames, and flower during the winter and spring months.

10 Choice Named Varieties. 25 cts. per doz., \$1.50 per 100. Choice Mixed Colors. 10 cts. per doz.,

50 cts. per 100.

TROPAEOLUM tricolorum. Scarlet tube, yellow center, tipped black. The compost in

which Tropeolums thrive best is a light rich loam, containing a large proportion of sand. The stems are usually trained on wires, but they may be allowed to fall down from a pot or basket with excellent effect, to form most attractive tracery of leafage dotted with dazzling flowers. The sunniest part of the greenhouse should be devoted to T. Tricolorum, and in potting special care must be taken to secure ample drainage. 10 cts. each, \$1 per doz.

Ixia (type)

AMARYLLIS (Hippeastrums)

Amaryllis, Grand Vittata Hybrids

50 cts. each, \$5 per doz., \$40 per 100

The stock that we offer of this grand flowering bulb are grown from seed procured from the most reliable hybridists of this beautiful plant, in England, Veitch & Kerr. They have been grown for us under most favorable conditions in Bermuda, and are thoroughly well-ripened bulbs—all flowering size.

Our grower sends us a fine field report upon these bulbs—stating the colors are exquisite, from purest white, all colors of red and crimson, rose and pink striped and variegated.

The bulbs will be sent out in mixture, no two varieties exactly alike—this will save confusion in endless names.

Amaryllis may be grown in a sunny window or greenhouse, by following the cultural directions given below.

In order to obtain fine specimens of Amaryllis the following method should be followed: On receipt of the bulbs in autumn they should be placed where they will be always slightly moist and warm—under the benches of a greenhouse, for example. Do not pot up the bulbs before the flower-buds appear; when first potted, give very little water, and promote growth by giving moderate bottom heat; increase the supply of water as the plants progress.

or witter as the piants progress.

All above ready for delivery in August

Giant Snowdrop (Galanthus Elwesia)

Snowdrops Growing in the Grass

MISCELLANEOUS BULBS

For Outdoor Planting, Naturalizing in Beds or Borders, or for interspersing with other Bulbs

CROCUSES

All lovers of a garden are familiar with the brilliant display which can be obtained from Crocuses in the opening days of spring. The planting may be in groups or lines of distinct color, but in every instance a massive effect should be aimed at. It only fritters away the bulbs to plant singly or in small numbers, and they are so cheap as to justify their lavish employment.

Perfectly hardy, thriving in sheltered and partially shaded situations; flower-stalks 2 to 3 feet high and bear twenty or more large blue flowers, each 2 inches across. 15 cts. per doz., \$1 per 100. Esculenta alba. White variety of above. 15 cts. each, \$1.25 per doz., \$10 per 100. Cusickii. Tall spikes, covered with pale lavender star-like flowers; yery prefty. Locts each, \$1 per doz. \$6 50 per 100.

very pretty. 10 cts. each, \$1 per doz., \$6.50 per 100.

Crocus

MISCELLANEOUS BULBS FOR OUTDOOR PLANTING, continued

CHIONODOXA (Glory-of-the-Snow). The most beautibling those of *Scilla Sibirica*, but larger, slightly taller, and more handsome. The Chionodoxa is very hardy, thriving in any ordinary garden soil and in almost any situation. The bulbs continue to flower from year to year. It is also excellent for forcing.

per 1,000, \$8.. 20 I 25 **Gigantea.** Unusually large flowers of lovely lilac-blue,
with conspicuous white center......per 1,000, \$10.. 20 I 25

CROWN IMPERIALS (Fritillaria imperialis).
Flowers range in color from pure yellow to deep shades of orange and reddish buff. Doz.
Ten Splendid Varieties, to name....each, 25c...\$2 25 \$20 00
Finest Varieties, Mixedeach, 15c... 1 25 10 00

DIELYTRA spectabilis (Bleeding Heart). One of the most ornamental of hardy spring-flowering plants, with elegant green foliage and long drooping racemes of heartshaped flowers. This is deemed one of the finest of all hardy garden plants. Ready in November. Magnificent racemes of pink and white flowers. 10 cts. each, \$1 per doz., \$7.50 per 100.

ERANTHIS hyemalis (Winter Aconite). The Winter Aconite is the very "firstling" of the year, covering the ground with gilt spangles in the bleakest days of February. Any soil or situation will suit this flower, and it should be planted in large patches within view from the windows. 15 cts. per doz., \$1 per 100, \$8 per 1,000.

ERYTHRONIUM (Giant Dog's-tooth Violet). Beautiful plants, perfectly hardy; the foliage is usually charmingly variegated, and a mass of fifteen or twenty plants is a pretty sight even when not in flower, but when the graceful flowers are in bloom the effect is matchless. The plants luxuriate in rather moist, partially shady positions, and do very nicely when grown in pots for winter blooming.

FRITILLARIA Meleagris (Snake's Head, or Guinea Hen Flower). An elegant species, growing from to 18 inches high, bearing in spring curious drooping bell-shaped

Fritillaria Meleagris alba

Muscaria, or Grape Hyacinth

flowers, most of which are very oddly marked, many being checkered and splashed white and purple, cream and maroon, etc. See illustration. Perfectly hardy and splendid for naturalizing, especially in semi-shaded places. Ten named varieties. 5 cts. each, 40 cts. per doz., \$2.50 per 100; mixed colors, 10 cts. for 3, 30 cts. per doz., \$2 per 100.

Fritillaria Meleagris alba. Pure white. 5 cts. each, 40 cts. per doz., \$2.50 per 100. (See illustration.)

FEATHERED, GRAPE AND MUSK HYA-

CINTHS. These Hyacinths will grow in any good garden soil and are admirably adapted for borders that are shaded by trees. They should be planted in large clumps and be allowed to remain several years undisturbed.

Doz. 100

Muscaria plumosa. Beautiful Feathered Hyacinth... \$0 15 \$1 00 totryoides alba. White Grape Hyacinths. 15 1 00 botryoides coerulea. Light blue Hyacinth ... 15 75 botryoides monstrosus. Giant blue Hyacinth ... 25 1 25 cinth ... 25 1 50 moschatus major (Musk Hyacinth). Grayish yellow; very fragrant ... 3 75 35 00

LEUCOJUM. Produces flowers like monster snowdrops; very graceful in growth, having the delicate fragrance of the violet. It is one of our earliest spring flowers, with white blossoms distinctly tipped green, handsome in outline and prized for bouquets. They should be grown in quantities in the borders or in spots on the edges of shrubbery, where they are beautifully effective, and when established produce enormous quantities of flowers.

LILY-OF-THE-VALLEY. Large clumps of Lily-ofplanting and naturalizing. These clumps will throw from fifteen to twenty spikes of flowers. 25 cts. each, \$2 50 per doz., \$20 per 100.

Eremurus Himalaicus

MISCELLANEOUS BULBS FOR OUTDOOR PLANTING, continued

EREMURUS. Majestic, tuberous-rooted plants. A noble ornament in flower-garden or on the lawn. The flowers are very fragrant
and closely arranged on stately spikes 6 to 10 feet high, forming a magnificent
column of bloom during June and July. Give a sunny position, sheltered from gales;
plant the tubers in the fall, while dormant, and set about 8 inches deep. Although
hardy, it will be safer in northern states to protect with 4 to 6 inches of leaves,
straw, manure or similar covering, to prevent the young growth, which starts very
early, from being tipped from late freezes. Strong flowering roots, that is roots that will flower the first season.

of the Eremurus 1 50 15 00 Elwesianus. Soft pink, with bands of deeper color down the middle of I 25 I2 00 segments.

Collection of one each of above for \$4: 3 collections for \$10

INCARVILLEA Delavayi (Hardy Gloxinia). This comparatively new perennial from northern China has been found hardy in perennial from nortnern China has been found hardy in the United States. We recommend, however, a liberal mulching where left out during winter. The tubers may be lifted in autumn and stored in the same manner as Dahlias and replanted in spring. The foliage resembles that of the Acanthus, while the blossoms appear like clusters of pink Gloxinias. It is extremely decorative and quite easily grown. (See illustration below.) Strong roots, 10 cts. each, \$1 per doz., \$7.50 per 100.

MONTBRETIA. Giant Montbretia Prometheus. Height 3 to 4 feet; flowers larger than any other Montbretia, size is 3½ in.; Giant Montbretia, George Davison. 3 feet high, bearing lovely pale orange-yellow flowers 3 inches across. 15 cts. each, \$1.25 per doz., \$10 per 102.

Giant Montbretia Germania. 3 to 4 feet high; flowers 2 to 3 inches; color is a rich, glowing orange-scarlet, with red throat. 5 cts. each. 40 cts. per doz., \$2.75 per

100, \$25 per 1,000.

Giant Montbretia Messidor. Color maple-yellow, passing to pale yellow. 15 cts.

each, \$1 per doz., \$7.50 per 100.

Giant Montbretia Martagon. Deep orange, with brownish center; reflexed petals. 5 cts. each, 50 cts. per doz., \$4 per 100.

Pottsii. Bright yellow, flushed with red. 15 cts. per doz., \$1 per 100, \$7.50 per 1,000.

Soleil Couchant. A handsome variety. 15 cts. per doz., \$1 per 100, \$9 per 1,000.

ORNITHOGALUM umbellatum. A very pretty variety; perfectly hardy; sometimes known as the American Star of Bethlehem; flowers white and star-shaped; fine for acclimatizing. 15 cts. per doz., \$1 per 100, \$7.50 per 1,000.

SCILLA praecox (Sibirica). The Blue Squill is perfectly hardy and should be largely grown in the open border in conjunction with snow-drops. It is also valuable for small beds and for making marginal lines in the geometric garden. Mammoth bulbs, 20 cts. per doz., \$1.25 per 100, \$10 per 1,000; large bulbs, 15 cts. per doz., \$1 per 100, \$8 per 1,000.

Campanulata (Bell-flowered Squill). Similar to the above, but of a rosy purple color. Grand for acclimatizing or planting among herbaceous plants. 20 cts. per doz., \$1.25 per 100, \$10 per 1,000.

Excelsior. The grandest blue in all the Scillas..... \$0 20 \$12 00 Blue 15 Rose 25 1 00 7 50 I 50 White..... 20 10 00 Mixed, all colors..... I 25 25 10 00

If Scillas are wanted by mail, add 15 cts. per 100 for postage

SPIRAEA aruneus. A grand and popular variety, producing splendid spikes of flowers 3 to 5 feet in height. Flowers are creamy white, and are borne in feathery panicles; 15 cts. each, \$1.50 per doz., \$10 per 100.

Palmata rosea. The beautiful deep pink hardy Spirea. An excellent companion for the white varieties. (See page 16.) 15 cts. each, \$1.50 per doz., \$10. per 100.

TRILLIUM grandiflorum (Great American Wood Lily). Most beautiful American plant. Perfectly hardy, growing and flowering profusely in partially shaded nooks about the lawn under trees, etc. The flowers are large, of the finest white, changing in a few days to soft rose. 10 cts. each, 65 cts. per doz., \$5 per 100.

Erectum. This is the purple wood-uly, the earliest to flower. 10 cts. each, 75 cts. per doz., \$6 per 100.

TRITELEIA uniflora (Spring Star Flower). A perfect little gem for pot culture. It flowers in very early spring months. Its star-shaped flowers of a delicate milky white, suffused with blue, emit the perfume of primroses. 15 cts. per doz., 75 cts. per 100, \$6 per 1,000.

Incarvillea Delavayi. Hardy Gloxinia

ENGLISH IRIS (Iris Anglica)

English Iris are specially adapted for planting, and naturalizing, the flowers are nearly as large as the Japanese Iris, and colors are unique and various. They grow from 18 to 20 inches high and are perfectly hardy. They flower after the German Iris and before the Japanese, making a good succession of bloom. We offer named varieties as follows:

Argus. Pink and white.
Bleu Celeste. Sky-blue.
Coleur Cardinal. Dark velvety blue.

Duke of Richmond. Magenta. Montblanc. Pure white.

Othello. Magenta-purple.
Thackeray. Rich claret color.
Tricolor. White, blue and red. Washington. Pale lavender, mottled blue

Bleu Mourant. Blue and white. Price of the above, 25 cts. per doz., \$1.75 per 100, \$15 per 1,000. Splendid Mixture 15 cts. per doz., \$1 per 100, \$7.50 per 1,000

SPANISH IRIS (Iris Hispanica)

The true value of the Spanish Iris appears to have been overlooked in this country. The great diversity of color and their being equally adapted for force ing for winter blooming and for massing in beds for spring flowering make them one of the most useful bulbs to plant

Iris Pallida Dalmatica

This is the grandest variety of all the German Iris. Color deep clear layender, very large, flowers sweet-scented. This Iris should be planted largely where cut-flowers are in demand, as it is certainly the best of its class. A grand variety for massing in borders; it is superb. 25 ets. each, \$2.50 per doz., \$20 per 100.

German Iris

JAPANESE IRIS

(Iris Kaempfen)

The Japanese Iris is the most showy and strikingly beautiful of all the large family of Iris; and very few flowers, the orchid not being excepted, surpass this unique flower in size and gorgeousness and variety of color, which ranges from snow-white to the deepest purple, striped, variegated and multicolored in the greatest profusion of coloring.

The collections which we offer below are American grown, thoroughly acclimated and hardy and true to color and name, which is rarely evident in the imported Japanese stock.

The plants we offer are furnished with four to five shoots, and all will flower the first season after planting, guaranteeing an immediate and showy effect. Delivery can be made now or any time desired. Early fall planting is recommended, however, as it gives the plants an opportunity to get established before the severe weather sets in.

The Japan Iris will succeed anywhere in a good rich soil, though a

moist position is preferable.

DOUBLE JAPANESE IRIS

Antelope. White ground, flaked and blotched.

Beauty. Pale violet, slightly veined white and yellow center.

Beth Hallock. Delicate lavender, slightly veined white.

Crystal. Pale violet, slightly veined white.

Othello. Deep rich purple, light blue toward center.

Princess Clothilde. White, veined lightly pink; center light violet.

Pyramid. Lilac-blue, veined with white center on each petal.

Chameleon. Dark reddish pink, striped and mottled white.

Eclaire. Largest pure white.

Hannibal. White ground veined and suffused with purple, light purple center.

Isabella. Light pink shaded violet, yellow center.

General Kuroki. Pure white, very fine.

Mahogany. Dark red shaded maroon. Wm. Tell. Silvery white.

Mount Hood. One of the finest blues.

Robert Craig. French gray, veined violet.

T. S. Ware. Reddish violet veined white.

Victor. White veined violet-purple.

Anna Christ. Pale lavender. slightly veined, center white.

Reddish violet, veined Briede. white.

Plume. White slightly suffused blue, violet veined, center deep lilac.

Venus. Lovely pure white.

Neptune. Light pink, shaded violet, deep pink center.

Norane. Fine violet color, with gray vein marks darker toward the center.

Tortoise. Magenta, flaked and dotted with white.

The above collection of 10 varieties for \$1

Price of any of the above varieties, 15 cts. each, \$1.50 per doz., \$10 per 100.

BODDINGTON'S BULBS BLOOM

PAEONIAS

N. B. PLANT PÆONIES IN THE FALL

THE SPLENDID SCARLET PARONY

President Roosevelt

This grand new Pæony, which originated in Holland. is now offered for the first time, and was named in honor of the President as a compliment to this country—as an evidence of the friendly relations existing between the two countries, Holland and America. The color is one of the most distinct of the Chinensis typea brilliant scarlet-a color almost unknown in the Pæony. 75 cts. each, \$7.50 per doz. Quantity limited. (See illustration.)

We also offer the following Grand Collection of

PAEONIA CHINENSIS

(To Name)

This type of Pæony blooms three weeks later than the Officinalis. The foliage is taller, more glossy and handsome and the flowers larger. Strong roots, three

to five eyes, in the following named varieties:	Each	Doz.
Agida. Bright red	\$0 15	\$i 50
Albert Crousse. Beautiful rose		10 00

Sunbeam. Rosy white. Comte de Nancy. Silvery rosy

Mons. Offoy. Blush-white. Princess May. Creamy white, Alba plena. Pure white. Queen Victoria. Snow-white. Gloria Mundi. Creamy white.

Any of the above, strong roots, 15 cts. each, \$1.50 per doz., \$10 per 100. Or, the set of 20 for \$2.50

PAEONIAS OFFICINALIS

This is among the hardiest and most popular species of the extensive Pæonia family, and is one of the commonest to be found in gardens, and the first to flower: also very sweet-scented. The varieties offered below are the most typical, and beautiful for either massing in borders or as individual specimens.

Rubra plena. Deep crimson; can be forced for Easter. 15 cts. each, \$1.50 per doz., \$10 per 100. Alba mutabilis. White. 20 cts. each, \$1.75 per doz.,

Rosea. Rose; also a good forcer. 15 cts. each, \$1.50

per doz., \$10 per 100.

JAPANESE TREE PAEONIAS

Tree Pæonias, unlike the Chinese and Officinalis types, do not die down to the ground each year. They make a hard-wooded growth, and in time become quite large shrubs. The flowers range in color from pure white to the darkest shade of purple, including all the shades of crimson and pink. Double and semi-double varieties, in 12 sorts, specially selected for me by a friend in Japan, consisting of the best varieties in commerce. 75 cts. each, set of 12 varieties for \$7.50, \$60

Ponnias

HARDY JAPANESE LILIES

For Outdoor Planting, or Growing in Pots for Summer Flowering

Nearly all the Lilies which are cultivated in pots for conservatory and greenhouse decoration are also well adapted for growing in the open ground, and in suitable soil they make an imposing display. The following varieties are generally recognized as border flowers, and with good reason, for the most inclement winter does not injure them. If left undisturbed, they present an increased number of flowers for several seasons. All the varieties of Lilies on this page do grandly in pots for conservatory decoration in the summer months. For cultivation of Lilies outdoors, see page 101 spring Catalogue.

Amateurs, Attention! Something new—Growing Bulbs in Fiber

The Idea of Growing Bulbs in Fiber Was a New One for This Country, Till We Offered Them Last Year, But It Has Been Practised Successfully in England for Many Years

Bulbs Growing in Fiber without Drainage

A most interesting method of growing bulbs is to place them in bowls, Hyacinth glasses and jardinières filled with prepared fiber; far better results for home decoration may be obtained in this way than by using ordinary potting soil.

For this system of culture no drainage is necessary, and the bowls which are specially made for the purpose are not pierced with the usual holes for drainage. They are non-porous, and may be placed on tables and columns, or they can be used in halls and corridors without the slightest risk of injury.

The fiber is perfectly clean to handle, odorless, and remains sweet for an indefinite period.

Any receptacle may be used for the purpose provided it is non-porous, but the bulbs to be planted in them should be suited to their size. Crocuses, Scillas, Snowdrops and Grape Hyacinths are available, also Tulips, Hyacinths and Narcissi. It is better not to mix different varieties of bulbs in one bowl unless simultaneous flowering can be assured.

The specially prepared fiber we offer requires moistening only before use. Having selected suitable receptacles for the bulbs to be grown, place a few pieces of charcoal (which we also supply with

the fiber) at the bottom of the bowl. Then cover the charcoal with moistened fiber according to the depth of the bowl, placing the bulbs in position so that their tips reach to within half inch of the rim. The spaces between and around the bulbs should be filled with moistened fiber, carefully firmed in by hand. The bulbs will require practically no attention for the first few weeks, and may be stood in a warm, airy position, but on no account must

they be shut up in a close cupboard.

If the fiber has been properly moistened, there will be no need to give water until the shoots are an inch or so long, but great care must be taken not to allow the fiber to dry, otherwise the flower buds become blind. The surface of the fiber should always look moist, but, if too much water has been given, the bowl may be held carefully on its side so that the surplus water may drain away. As the growth increases, more water will be required, and as much light as possible, to ensure sturdy foliage.

This fiber also answers admirably instead of water for Hyacinths grown in glasses, but care should be taken to fill the glasses as lightly as possible with the compost; if packed in tightly, root growth is liable to push bulbs out of position.

Prepared Fiber, one-quarter bus. 75 cts., one-half bus. \$1.25, bus. \$2.

SPECIAL OFFERS: 3 Roman or Dutch Hyacinths and 1 Art Jardiniere; or 6 Tulips, red, white or yellow, and 1 Art Jardiniere; or 12 Crocus, blue, yellow or white, and 1 Art Jardiniere; or 5 Paper White Narcissus and 1 Art Jardiniere; or 4 Narcissus Golden Spur (yellow) and 1 Art Jardiniere; or 3 Chinese Sacred Narcissus and 1 Art Jardiniere, with sufficient fiber and charcoal to grow any of the above collections for \$1, 3 for \$2.75.

Practically any variety of bulbs will grow and flower to perfection in our prepared fiber, if the instructions as given above are carried out; or we shall be happy to answer any further questions along these lines. Last year we delivered quite a large quantity, and we have yet to hear of one failure.

This is the Art Jardiniere we furnish with the Special Offers
Size, height 6 inches, width 7 inches; color, deep olive-green.
without bulbs or fiber, 75 cts. each, \$8 per doz.

"Quality" Christmas-Flowering Sweet Peas

CULTIVATION

Christmas-flowering Sweet Peas should not be sown too thick, about one ounce to 25 feet is sufficient. Thin out to about 3 inches apart when plants are 6 inches high; if wanted for Christmas, sow before the end of August; if wanted during January, February and March, about the middle of September; if wanted for Easter, about the first of November. For a successful growing, a temperature of 40 to 45 degrees at night and 10 degrees higher in the day is considered best. Watch out for red spider, thrip and green fly. Feed when plants are in full bloom.

BODDINGTON'S EXTRA-EARLY CHRISTMAS WHITE SNOWBIRD. An exceptionally early Sweet Pea for indoor flowering—will bloom six weeks after sowing. Color clear white, upon long stems; habit fairly dwarf, and of exceptionally free-flowering qualities. Without doubt, the finest early white for indoor planting. Pkt. 10 cts., oz. 25 cts., ½lb. 75 cts., ½lb. \$1.25.

BODDINGTON'S CHRISTMAS PINK. This is the earliest and most profitable and useful Sweet Pea in cultivation, as, by sowing the seed under glass in latter part of August, flowers can be cut from Thanksgiving on during the winter months. Pkt. 10 cts., oz. 15 cts., 10 cts., 1

as free and profuse a bloomer. Pkt. 10 cts., oz. 15 cts., 1/4 lb. 50 cts., 1/2 lb. 75 cts.

CANARY. Similar to the above, but flowers of an exceptionally good yellow. Pkt. 10 cts., oz. 15 cts., 1/4 lb. 50 cts., 1/2 lb. 75 cts.

FLAMINGO. Color scarlet; free-flowering and early. Pkt. 25 cts., 5 pkts. for \$1. Christmas Meteor. Scarlet; fine open red flower. Pkt. 25 cts., oz. 50 c, 16 \$1.50. Christmas Captain. Blue and purple. Pkt. 25 cts., oz. 50 cts., 16 \$1.50. Florence Denzer. Pure white. Pkt. 10 cts., oz. 15 cts., 16 b. 50 cts. Greenbrook. White, standard, slightly touched with lavender. Large orchid-flow-

ering variety. Pkt. 25 cts., oz. 50 cts. Governor Fort. A very large-flowered variety, clear salmon pink. Pkt. 50c., oz \$1. Le Marquis. This is the same color as Princess of Wales, violet; has very large

Mrs. Hannan. Deep rose-pink of a very pleasing shade; medium flower. Pkt. 25 cts., oz. 50 cts.

Mrs. F. J. Dolansky. Daybreak pink. Pkt. 25c., oz. 50c., ¼lb \$1 50.

Mrs. Chas. H. Totty. Sky-blue; late. Pkt 25c., oz. 50c., ¼lb.\$1.50.

Mrs. Zvolanek. Blue variegated, very pretty. Pkt. 25 cts., oz. 50c.

Pink Beauty. A self-colored rose-pink, and the best of its color and class during the winter months, toward spring, suffused orange. Pkt. 50 cts., oz \$1.

Wallacea. An excellant lavender variety, and one of the best of its color for indoor flowering. Pkt. 25 cts., oz 50 cts.

its color for indoor flowering. Pkt. 25 cts., oz 50 cts.

Watchung. Pure white; height 6 feet. Pkt. 10c., oz. 30c., 1/2 lb. \$1.

Wm. J. Stewart. Blue self. Pkt. 25 cts., oz. 50 cts. 1/2 lb. \$1.50.

All these varieties produce quantities of flowers throughout the winter, with from two to five flowers on stems up to 25 inches in length, all growing over 5 feet high, and when well grown reaching the height of 10 feet.

All other varieties supplied at advertised rates for Sweet Peas for outdoor winter sowing.

NEW GIANT SWEET SULTAN

(Centaurea Imperialis)

This is one of the best cut-flowers, and they are forced very extensively under glass by florists and gardeners through the winter months.

GIGANTEA, Boddington's Giant Hybrids, Grand Mixture.

Pkt. 25 cts., ¼oz. 35 cts. Boddington's Pure White. One of the best white flowers for cutting; large and sweet.

Armida. Very delicate color; pink, with white tinge.

Iphigenia. Delicate rose-lilac,

white center.

Graziosa. Intense dark lilac. Lilacina. Lilac; very distinct. Purpurea. Purple-rose.

Rosea. Deep rose. Splendens. Brilliant dark purple.

Variabilis. White, marked pur-

Favorita. Brilliant rose. | ple, fading to rose.

Collection of above 10 varieties, 90 cts. Any of the above kinds, pkt. 10 cts., ½ oz. 35 cts.

Boddington's Extra-Early Christmas White Sweet Pea Snowbird

SCHIZANTHUS

GRANDIFLORUS BODDINGTONII (Boddington's Select **Hybrids**). This strain is superior to any of the Schizanthus in cultivation; the flowers are better shaped and the colors are more varied. In habit the plants are very bushy and the flowers are invaluable for cutting; unequaled as a pot-plant. Pkt. 75 cts.

WISETONIENSIS. The colors are varied, ranging from white, with yellow center, to pink, with brown center. Most useful as a winter plant, and should be given a place in every greenhouse. Pkt. 50 cts.

ASPARAGUS

Plumosus nanus. \$1 per 100 seeds, 25 cts. per pkt. Sprengeri. 50 cts. per 100 seeds, 10 cts. per pkt.

Giant English Daisies. (Novelty, '09.) For strength, robust growth and size of flowers these two new Giant Daisies excel all varieties hitherto disseminated. Each plant producing from 12 to 15 flowers, 2 to 3 inches in diameter. Pkt. 25c., 5 pkts. \$1, 1/2 oz. \$1.

Boddington's Gigantic Cyclamen

BODDINGTON'S GIGANTIC

The seed of Cyclamen is often sown too early in the year; from the middle of August to the end of September is the best time. The seedlings should be grown on to the flowering stage without any check whatever. When grown cool the results are most satisfactory. Boddington's Gigantic Cyclamen are unequaled for size and quality of bloom. A magnificent strain of Cyclamen with flowers of extraordinary size and substance.

Gigantic White Butterfly. Pure white; immense flowers. Gigantic Snowflake. The largest of all white Cyclamen. Gigantic Cherry-Red. Most brilliant and effective.

Gigantic Rose. Immense flowers of a pleasing shade of light rose.
Gigantic Pink. Exquisite shade of soft pink.

Gigantic Crimson. Most striking color: under artificial light appears to be almost luminous.

Gigantic Crimson and White. A magnificent flower of the largest type.

Gigantic Syringa Blue. (New). A charming color,

Gigantic Lilac. A very pleasing color, lighting up well at night.

Any of the above varieties, pkt. 50 cts.; 100 seeds, \$2. Collection of 9 varieties as above, one packet each, \$4

Gigantic Mixed. A mixture of all the above varieties in proper proportion.

Gigantic Mixed. A mixture of all the above varieties in proper proportion. Pkt. 50 cts., 100 seeds \$2. PRINCESS MAY. A very pretty type of Cyclamen. Color pink, with suffused blotches of crimson at base of petals. Pkt. 50 cts., 100 seeds \$2.25. SALMON QUEEN. Undoubtedly the most distinct and beautiful salmon color found in Cyclamen. Pkt. 50 cts., 100 seeds \$2.25. Salmonium splendens. The finest salmon-pink variety. Pkt. 50c., 100 seeds \$2.25. Rococo. The flowers, which are beautifully fringed, measures 5 inches in diameter. Pkt. 50 cts., 100 seeds \$2.25. Bush Hill Pioneer. A beautiful new feathered Cyclamen in various colors.

Pkt. 50 cts., 100 seeds \$2.25.

Six Grand Novelty Cyclamens

Peach Blossom. An exceptionally handsome variety of an intense rose color. Pkt. 50 cts

Purple King. The best of all crimson varieties and strikingly beautiful. Pkt. 50 cts.

Phoenix. Bright cherry-crimson flowers, freely produced. Pkt. 50 cts. Rose of Marienthal. Soft shell-pink; a very pretty variety. Pkt. 50 cts.

Salmon King. One of the finest salmon varieties. Pkt. 50 cts.

The rich crimson color is very striking and contrasts admirably with the pure white of Butterfly. Pkt. 50 cts.

Collection of the preceding 6 Novelty Cyclamens for \$2.50

CYCLAMEN, JAMES' NEW SWEET-SCENTED

A fragrant Cyclamen has been quite beyond expectation, nevertheless we have in this splendid novelty a variety having a particularly pleasant odor resembling that of the Honey Locust, or of the Lily-of-the-valley. The colors are pink, flesh-pink with carmine base and white. Pkt. 50 cts.

MAJESTY MIGNONETTE

Greenhouse-Matured Seed

The grandest of all Mignonettes for indoor forcing. Easy to grow; strong constitution and throwing up a quantity of flower spikes which grow to an immense size. Half pkt. 60 cts., pkt. containing about 500 seeds, \$1.

STOCKS, WINTER-FLOWERING

QUEEN ALEXANDRA. A splendid variety; flowers delicate rosy lilac, a tint of incomparable beauty. Pkt. 25 cts

ALMOND BLOSSOM. White, shaded carmine. Pkt. 25 cts.

Crimson King. The plant attains a height of 2 to 2½ feet and throws a gigantic flowerspike I foot in length, around which are a number of side shoots, covered with large fragrant flowers of a brilliant fiery crimson. Pkt. 25 cts., 5 pkts. for \$1.

Empress Elizabeth. Awarded a First-class Certificate of Merit by the New York Florists'

Club, 1910. Bright carmine. Pkt. 50 cts.

Princess Alice (Cut-and-Come-Again). Pure white. Pkt. 25 cts., 1/202. \$1.

Beauty of Nice. Daybreak-pink. Pkt. 25 cts., 1/25.

Old-fashioned Gardening

Hardy Perennial and Old-Fashioned Flowers

THAT CAN BE PRODUCED FROM SEED SOWN IN LATE SUMMER AND FALL

Cultural Directions.—Perennial seed sown in the late summer and fall will flower the following year—spring, summer or fall, according to the variety. The seed should be sown carefully, the same as any choice seed, in well-drained pots, or shallow boxes or pans. Soil should be light and fairly rich, with about one-eighth coarse sand added, after sowing cover lightly with well-sifted soil. When plants have become large enough to handle, "prick out" about 2 inches apart, more if you have the room, in shallow boxes or frames, and again when large enough; set out in the open in well-prepared ground. If this is done in the fall, the young plants should be lightly covered with leaves or short stable manure; this will act as a slight protection, and will be conducive to their thriftiness and next season's growth.

BODDINGTON'S QUALITY MIXTURE OF DWARF PERENNIAL SEEDS for wild gardens and woodlands. Pkt. 25 cts., ½0z. 75 cts., oz. \$1.30, ½1b. \$5.

BODDINGTON'S QUALITY MIXTURE OF TALL PERENNIAL SEEDS for wild gardens and woodlands. Pkt. 25 cts.,

BODDINGTON'S QUALITY MIXTURE OF TALL PERENNIAL SEEDS for wild gardens and woodlands. Pkt. 25 cts., 40z. 75 cts., oz. \$1.30, \(\frac{1}{2} \) 10. \$\(\frac{1}{2} \) 5.

GILIA CORONOPIFOLIA

One of the most beautiful biennials we have. This remarkable plant is unique from the fact that it has been lost to view for a number of years. This is surprising considering the beauty and general worth of this delightful plant. The flowers are borne in-clusters and are of a bright shade of scarlet and most effective,—should be better known and extensively grown. They may be grown as pot plants and will flower well in 5- and 6-inch pots. The brilliant scarlet flowers make it a grand subject for decoration in the conservatory. **Pkt. 25 cts.**, \$1 for 5; large pkt. 50 cts., \$1.25 for 3.

LAWN GRASS SEED FOR FALL SOWING

The "Lenox Formula." Absolutely free from all noxious weed seeds. This mixture is composed of fine-leaved, dwarf-sowing, it will produce a rich velvety lawn, which will remain green throughout the year. This mixture has produced some of the most famous lawns in Lenox, Mass. We recommend sowing five bushels of seed to the acre, or for renovating old lawns, one to two bushels. One quart of seed will sow 15 x 20 feet (300 square feet), one bushel 100 x 108 feet (10,800 square feet).

Price, qt. 25 cts., pk. \$1.50, bus. (20 lbs.) \$5

BODDINGTON'S LAWN-RESTORING GRASS SEED

A mixture of grasses peculiarly suited to take firm hold and grow quickly on hard, worn-out or burned spots. The best time to resow them is very early in spring, but seed may also be sown in the fall from September to October.

Price, qt. 30 cts., pk. \$1.50, bus. (24 lbs.) \$5

BODDINGTON'S SPECIAL "PUTTING GREEN" MIXTURE

The finest low-growing grasses are contained in this mixture, producing a lasting green turf that will withstand hard wear and tear.

Price, qt. 35 cts., pk. \$1.50, bus. (20 lbs.) \$5

BODDINGTON'S FAIR-GREEN LAWN GRASS

For the Golf Links.

Price, bus. (20 lbs.) \$4, 10 bus. \$35

BODDINGTON'S MIXTURE FOR SHADY LAWNS

A mixture of fine grasses adapted for growing in the shade, and under trees.

Price, qt. 35 cts., pk. \$1.50, bus. (20 lbs.) \$5

BODDINGTON'S "TERRACE MIXTURE"

-A mixture of strong, deep-rooted grasses for banks and terraces, that will prevent washing away during heavy rains.

Price qt. 35 cts., pk. \$1.50, bus. (20 lbs.) \$5

BODDINGTON'S LAWN GRASS FOR THE SOUTH

A mixture of grasses that stand extremes of heat and drought well and that are therefore peculiarly adapted for southern lawns.

Price, qt. 35 cts., pk. \$1.75, bus. (20 lbs.) \$6

BODDINGTON'S LAWN GRASS FOR THE SEASHORE

A mixture of fine grasses peculiarly suited to seaside lawns.

Price, qt. 35 cts., pk. \$1.50, bus. (20 lbs.) \$5

BODDINGTON'S TENNIS-COURT LAWN GRASS

A mixture of extra-fine grasses peculiarly adapted for tenniscourts. This mixture will make a firm, green and lasting turf of the finest texture, that will improve with tramping.

Price, qt. 35 cts., pk. \$1.75, bus. (24 lbs.) \$6

CLOVERS GRASSES AND

Prices subject to change. Special quotations on large quantities

GRASS SEED

Creeping Bent (Agrostis stolonifera). The distinctive feature of this species is, as the name implies, its compact, creeping, rooting stems. It is of rapid growth and spreading habit, and the stoloniferous roots form a strong, enduring turf, that is positively improved by constant tramping. Most valuable for lawns and putting greens. If sown alone, 50 lbs. to the acre should be used. (18 lbs. to the bushel.) Lb. 35 cts., 10 lbs. \$3; 100 lbs. \$28.

Crested Dog's-Tail (Cynosurus cristatus). It possesses in a marked degree all the desirable features of a good lawn grass.

Lb. 40 cts., 10 lbs. \$3.75, 100 lbs. \$35.

English Rye (Lolium perenne). Grows rapidly and makes a good showing within a month from time of sowing. Heavy, clean seed.

Lb. 15 cts., 10 lbs. \$1.50, 100 lbs. \$12.

Fine-leaved Sheep's Fescue (Festuca ovina tenuifolia). Valu-

able for lawns. Lb. 40 cts., 10 lbs. \$3.75, 100 lbs. \$35. **Hard Fescue** (Festuca duriuscula). A dwarf-growing variety, Hard Fescue (Festuca duriuscula). A dwarf-growing variety, succeeding well in dry situations. Lb. 30c., 10 lbs. \$2.75, 100 lbs. \$25. Italian Rye (Lolium Italicum). Thrives in almost any soil; lasts only one year. Lb. 15 cts., 10 lbs. \$1.50, 100 lbs. \$1.20. Kentucky Blue (Poa pratensis). Fancy or double extra clean. Lb. 50 cts., 10 lbs. \$4.50, 100 lbs. \$4.50. Meadow Fescue (Festuca pratensis). Valuable for permanent pasture. Lb. 30 cts., 10 lbs. \$2.75, 100 lbs. \$25. Meadow Foxtall (Alopecurus pratensis). For permanent pasture. Lb. 30 cts., 10 lbs. \$2.75, 100 lbs. \$40. Orchard (Dactylis glomerata). Valuable for mixtures, either for pasture or hay. Lb. 30 cts., 10 lbs. \$2.75, 100 lbs. \$30. Red, or Creeping Fescue (Festuca rubra). Suitable for sandy seacoast and on dry soil. Lb. 30 cts., 10 lbs. \$2.75, 100 lbs. \$25. Red Top (Agrostis vulgaris). Fancy or extra re-cleaned seed. Lb. 30 cts., 10 lbs. \$2.75, 100 lbs. \$25. Rhode Island Bent (Agrostis canina). A very fine variety for lawns. Lb. 35 cts., 10 lbs. \$3.25, 100 lbs. \$30. Rough-stalked Meadow (Poa trivialis). Valuable on damp soils. Lb. 50 cts., 10 lbs. \$4, 100 lbs. \$36.

Lb. 50 cts., 10 lbs. \$4, 100 lbs. \$36.

Sheep's Fescue (Festuca ovina). Excellent for sheep pastures; valuable also for lawns and pleasure grounds. Lb. 30 cts., 10 lbs.

\$2.75, 100 lbs. \$25 **Sweet Vernal, True Perennial** (Anthoxanthum odoratum). Emits an agreeable odor. Lb. 85 cts., 10 lbs. \$7.50.

Tall Meadow Fescue (Festuca elatior). Very early; nutritive and productive on wet or clay soils. Lb. 40c., 10 lbs. \$3.50, 100 lbs. \$30. Tall Meadow Oat (Avena elatior). Of great value in permanent

hay mixtures. Lb. 30 cts., 10 lbs. \$2.75, 100 lbs. \$22. **Timothy,** or **Herd Grass** (*Phleum praiense*). Choice sample, free from weed seeds. Price subject to change without notice. Lb. 20

cts., 10 lbs. \$1.50, 100 lbs. \$12.

Various-leaved Fescue (Festuca heterophylla). Valuable for permanent pastures and lawn mixtures. Lb. 50 cts., 10 lbs. \$4.50, 100 lbs. \$40

Wood Meadow (Poa nemoralis). Of early growth, and thriving well under trees. Lb. 90 cts., 10 lbs. \$8.50.

CLOVERS

Alfalfa, or Lucerne (Medicago sativa). A permanent Clover of great value. Lb. 50 cts., 10 lbs. \$4.50, 100 lbs. \$40.

Alsike, or Hybrid Clover. A useful permanent sort. Lb. 30 cts., 10 lbs. \$2.75, 100 lbs. \$25.

Red, Medium (Trifolium pratense). Choice clean seed. Price subject to change without notice. Lb. 30c., 10 lbs. \$2.75, 100 lbs. \$25.

Scarlet, or Crimson (Trifolium incarnatum). Of great value for scarlet, or Crimson (*Tryotum incarnatum*). Of great value for sowing in the fall for plowing under the following spring. Lb. 30 cts., 10 lbs. \$2.75, 100 lbs. \$25.

White (*Trifolium repens*). Should be used in all mixtures for permanent pastures and for lawns. Lb. 50c., 10 lbs. \$4.50, 100 lbs. \$40.

GRASS MIXTURES FOR HAY AND PERMANENT PASTURE

Our formulas contain the following varieties blended in proportions which we have found to give the most satisfactory results on different soils and situations: Orchard Grass, Meadow Foxtail, Sheep's Fescue, Rhode Island or Creeping Bent, Hard Fescue, Sweet-scented Vernal (True Perennial), Meadow Fescue, English Rye Grass, Italian Rye Grass, Red Top Timothy and Red Alsike Clover. On ordinary fertile soil three bushels is sufficient to seed an acre, but where the land is poor a larger quantity will be necessary.

For Hay and Permanent Pasture for Light Soils.

" "Medium Soils.

66 " Heavy Soils. 44

" Orchard and Shady Places.

Hay only. Specially recommended for large hay crop. " Pasture only. Will stand close cropping without injury.

Per bus. of 14 lbs., \$3.50; 20-bus. lots, \$3 per bus.; 50-bus. lots, \$2.75 per bus.

Esculent Plants and Roots

FORCING SEA KALE ROOTS (Crambe maritima)

Sea Kale is almost unknown in America, but considered quite a delicacy in Europe. It is one of the most succulent and edible vegetables known, and can be forced like rhubarb, or grown in the open ground and protected so that it will bleach. In form and flavor it is not unlike celery, though it is not eaten raw, but boiled and served with drawn butter. We are importing some specially fine stock this fall.

Imported Extra-selected Forcing Crowns. \$1.75 per doz., \$15 per 100, \$120 per 1,000.

ASPARAGUS (Asparagus officinalis)

Cultural directions.—Mark out rows for field culture 6 feet apart with a two-horse plow, going twice in a row, getting row as deep as possible without getting in the yellow soil, spread in row good well-rotted manure or fertilizer, drop on manure about 10 inches apart (eye up) good two-year-old roots, cover with a hoe about two inches. In about two or three weeks the Asparagus will be up enough to cultivate; work same as other field crops, gradually working in soil as season advances, naturally it will work itself in; the following spring plow off with a one-horse plow, very shallow so as not to cut the crowns and work same as previous season; the next season your bed will be ready for cutting for market, simply plow off same as season before, then turn in large double with a two-horse plow and rake off the top and your bed is completed, and you can cut every day until July 4—a bed made this way will last for twenty years. For a garden, follow the same plan; but as the gardens are generally very rich, you can plant much closer, and work by hand, instead of with horse and plow.

Forcing Crowns. These are extra-heavy and suitable for forcing under glass or in frames. Five-year-old, extra-strong, \$1 per doz., \$7.50 per 100,

Conover's Colossal. Extra-strong, two-year-old, \$1 per 100, \$8 per 1,000. Palmetto. Extra-strong, two-year-old, \$1 per 100, \$8 per 1,000.

Boddington's Selected Forcing Sea Kale

Boddington's "Quality" Pure Culture Mushroom Spawn

PRODUCES MUSHROOMS IN FOUR WEEKS SUPERIOR AS TO QUAL-ITY AND SIZE, AND MORE SURELY THAN ANY OTHER SPAWN

Pure Culture Mushroom Spawn. The "new idea" is no longer in the experimental stage. The largest growers of Mushrooms use the Pure Culture Spawn.

Pure Culture Mushroom Spawn is propagated by a scientific process direct from varieties selected for size and prolific bearing. By this new process, the chances of the spawn becoming "dead" and the crop a failure are largely eliminated.

Price of Boddington's Pure Culture Mushroom Spawn, per brick 30 cts., by mail. 45 cts.; by express, 5 bricks \$1.50: 10 bricks \$2.50, 25 bricks \$5, 50 bricks \$9. CULTURAL DIRECTIONS FREE-IF REQUIRED.

ENGLISH MILLTRACK MUSHROOM SPAWN

Fresh from the most celebrated maker in England. Made in bricks, 10 lbs. will spawn 10 ft. square. 15 cts. per lb., \$1 for 8 lbs., \$10 per 100 lbs.

Dormant, Hardy, Hybrid Perpetual and Other Roses

SELECTED LARGE TWO-YEAR-OLD BUSHES: LOW BUDDED

Roses still hold popular sway in the garden, and to meet requirements we have made special arrangements this year with regard to Roses still hold popular sway in the garden, and to meet requirements we have made special arrangements this year with regard to the quality of the stock and list of varieties, which we have selected primarily for their hardiness, variety of coloring and productiveness. We are handling this year only American-grown and English-grown Hybrid Perpetual Roses, as we find these are much better ripened, and, if planted in the fall, winter over much more satisfactorily than the cheap Holland-grown Roses, usually sold at department stores. They are also budded lower and are less liable to "sucker" from the brier upon which they are budded. Fall or spring delivery.

HARDY HYBRID PERPETUAL ROSES

Prices of American-grown Roses, 30 cts. each, \$1.50 per bundle of 5 (one variety only) \$25 per 100, \$200 per 1 000 English-grown (imported) Roses, 40 cts. each, \$1.75 per bundle of 5 (one variety only), \$30 per 100, \$250 per 1,000

ABEL CARRIERE. Crimson, bright center.

ALFRED COLOMB. Carmine-crimson; a grand Rose.

ANNE DE DIESBACH. Bright carmine.

BALL OF SNOW (Boule de Neige). Large, pure white, globular former

BARON DE BONSTETTEN. Blackish crimson, with vivid red

BARONESS ROTHSCHILD. An exquisite shade of satiny pink. CAPT. CHRISTY. Delicate flesh color, deepening toward the

CHESHUNT HYBRID. Red. shaded violet.

CLIO. Satin blush; very fine new sort.

COQUETTE DES ALPES. White, tinged with blush; mediumsized flower, semi-cupped in form; a fine variety.

DUKE OF CONNAUGHT. Large rosy crimson.

DUKE OF EDINBURGH. Bright vermilion; extra-large and

full; splendid variety. **DUKE OF TECK.** Bright crimson. **EARL OF DUFFERIN.** Bright red; one of the best.

EUGENE VERDIER. Superb flower; crimson-violet. **FISHER HOLMES.** Finely shaped flowers; dark velvety crimson.

GLOIRE DE MARGOTTIN. Dazzling red.

GEN. JACQUEMINOT. Brilliant crimson; the popular Rose.
GEN. WASHINGTON. Red, shaded crimson and carmine; large.
GEANT DES BATAILLES. Deep, fiery crimson.

JOHN HOPPER. Bright rose, with carmine center; large and full; esteemed by all as of the highest order.

LA FRANCE. Peach-blossom pink; the model garden Rose;

MABEL MORRISON. Pure white, large, massive and perfect.

MME. CHARLES WOOD. Bright carmine, full and free.

MARGARET DICKSON. White, with pale flesh center; extra-

large flower, of fine substance; strong, vigorous growth. **MARSHALL P. WILDER.** Cherry-rose and carmine.

MAGNA CHARTA. Dark pink; one of the easiest Roses to grow.

MME. GABRIEL LUIZET. Light, satiny pink; attractive sort. MRS. JOHN LAING. Rich, satiny pink; delicious fragrance;

blooms constantly.

PAUL NEYRON. Flowers 5 inches across; lovely dark pink.

PERLE DES BLANCHES. White.

PERSIAN YELLOW. Hardy yellow Rose; best of its color.

PRINCE CAMILLE DE ROHAN. Dark crimson-maroon.

ULRICH BRUNNER. Cherry-red; grand Rose; free blooming.

The above collection of 35 Hardy Roses, one plant of "Frau Karl Druschki" (see below), American-grown, for \$10 English-grown, for \$12

Frau Karl Druschki, or Snow-White Rose

Snow-White Hardy Hybrid Perpetual Rose

FRAU KARL DRUSCHKI

This magnificent variety has taken first prizes at all the great flower shows of Europe and America, and is undoubtedly one of the grandest hardy pure white Roses ever introduced. Makes splendid buds and immense flowers, 4 to 5 inches across, perfectly double and delightfully fragrant, large, thick petals, very durable and handsome. Bright shining green leaves, elegantly veined; a healthy, vigorous grower, entirely hardy, and a constant and abundant bloomer. Recommended by the leading Rose-growers of the world as the most beautiful and satisfactory snow-white per-petual Rose ever seen. See illustration. Strong, 2year-old field-grown plants, 40 cts. each, bundle of five for \$1.50, \$30 per 100.

Grand Pink Hybrid Perpetual Rose MRS. SHARMAN-CRAWFORD

One of the finest Roses grown. Deep rosy pink, the outer petals shaded with pale flesh-color, white at base of petals, and distinct from all other Hybrid Perpetual Roses. 40c. each, bundle of five for \$1.50, \$30 per 100.

SOLEIL D'OR (Golden Sun)

A cross between the Persian yellow and the Hybrid A cross between the Persian yellow and the Hybrid perpetual Antoine Ducher. It retains considerable of the character of Persian Yellow, the bark of the wood being reddish, the thorns very fine; the foliage more ample, of a beautiful green and close together. Like Persian Yellow, this variety is perfectly hardy, with large, full, globular flowers, varying in color from gold and orange to reddish gold shaded with nasturtium-red. Heavy, 2-year-old budded plants, 40 cts. each, bundle of five for \$1.50. So per Ico. bundle of five for \$1.50, \$30 per 100.

Hybrid Tea, or Everblooming Roses

Hybrid, Tea or Everblooming Roses are becoming more popular every year, while not so hardy as the perpetuals, with slight protection in winter they carry over in splendid shape and give a wealth of bloom all through the summer and late in the fall till frost checks them.

GRAND (ENGLISH GROWN) EVERBLOOMING ROSES

Avoca. Color crimson-scarlet; buds very long and pointed; flowers large and sweetly perfumed; foliage large and One of the best of its color. Awarded a Gold Medal, National Rose Society of England. Strong 2-year-old plants, 50 cts. each, bundle of five for \$2.50.

American Beauty. Almost too well known for description, but as popular today as twenty very floriferous. Strong field-grown plants. 40 cts. each, bundle of five for \$2, \$35 per 100.

Betty. Early in the season when newly planted, is a disappointment in the first flowers which it opens, but after it becomes established it produces blooms of marvelous beauty. The plant is a strong, vigorous grower, with clean, healthy foliage, producing in great profusion its large, deliciously scented flowers, which are of a glowing coppery rose color, suffused with a golden sheen. Strong 2-year-old plants, 50 cts. each, bundle of five for \$2.25.

Bon Silene. An old favorite; color lovely soft pink suffused rose; flowers rather small, very floriferous. 40 cts. each, bundle of five for \$2, \$35 per 100.

Bessie Brown. Creamy white. 40 cts. each, bundle of five for \$2, \$35 per 100.

Countess of Gosford. A very beautiful variety of the Hybrid Tea class, somewhat resplendid acquisition. 50 cts. each, bundle of five for \$2.25.

Caroline Testout. Bright satin rose, with brighter center, large, full and globular; sweet-scented. 40 cts. each, bundle of five for \$2, \$35 per 100.

Dorothy Page Roberts.

A lovely shade of coppery pink, suffused with apricot-yellow, suffused with apricot-yellow, suffused more especially at the base of the petals, which are very large, massive and of great substance. An ideal garden Rose of wonderful charm and fascination. Awarded a Gold Medal, National Rose Society of England. Strong 2-year old plants, 75 cts. each, bundle of five for \$3.75, \$60 per 100.

Dean Hole. Silvery carmine, shaded salmon, flowers large and of fine form. 40 cts. each, bundle of five for

Elizabeth Barnes. Satiny salmon-rose, with a fawn center, suffused with yellow, outside of petals deep rosy red, shaded with copper and yellow. The shades of color are most beautiful and novel. The flowers are large, full, with pointed center, most perfectly formed and possessing a delightful fragrance. A truly grand and superb Rose. Strong, 2-year-old plants, 75 cts. each, bundle of five for \$3.75, \$60 per 100.

Etoile de France. Fine long bud, coming singly and carried on stiff, erect stems. Flower very large, possessing petals of very good substance; magnificent cupped form; very full and expanding very freely. Superb crimson-red velvet, the center of the bloom vivid cerise-red. The flowers are very fragrant and last well. Field-grown, strong 2-year-old plants, 40 cts. each, bundle of five for \$2, \$35 per 100.

Gruss an Teplitz. No Rose in commerce can compare with Gruss an Teplitz as a bedder. It is a perfect sheet of richest crimson-scarlet all summer. A strong, vigorous grower. Hardy. 40 cts. each, bundle of five for \$2,\$30 per 100.

Harry Kirk. New, Irish, Yellow Rose. Harry Kirk is absolutely unique, a splendid Rose, of most robust growth, with free-branching habit, flowering freely and continuously; the blooms are large, full, with large smooth petals of great substance; the form is perfect, the buds long and elegant. Color deep sulphur-yellow, passing to a lighter shade at the edges of the petals. In our judgment, it is by long odds the finest yellow everblooming Rose yet introduced, a color much wanted. We offer a limited stock of strong 2-year-old plants. 75 cts. each, bundle of five for \$3.75, \$60 per 100.

Hermosa.

A grand free-flowering polyantha Rose, deep pink.

30 cts. each, bundle of five for \$1.50, \$25 per 100.

Kaiserin Augusta Victoria.

primrose. Fine for indoor or outdoor summer-blooming. 40 cts. each, bundle of five for \$2, \$35 per 100.

Killarney. The buds are long, of beautiful soft pink color; even when fully expanded, the petals do not drop, but remain intact for a week. Strong, 2-year-old field-grown stock, 40 cts. each, bundle of five for \$2, \$35 per 100.

Konigin Karola (Improved Testout). Magnificent. 50 cts. each, bundle of five for \$2.50, \$45 per 100.

Liberty. Very free-flowering, bright crimson-scarlet, of an even shade throughout; floriferous. 40 cts. each, bundle of the for \$2, \$35 per 100.

Lyon. Originated by the raiser of Etoile de France. Perpetual-flowering. A very vigorous grower of slight spreading two orthree occasionally come on the same shoot. The buds are of large size and long, round shaped, coral-red in color, strongly tinted with chrome-yellow at the base. The blooms are very large, with broad petals, full and globular in form; superb coloring, shrimp-pink at the end of the petals, center coral-red or salmon-pink, shaded with chrome-yellow, thus making a most charming and happy contrast of colors. Strong, 2-year-old, field-grown plants, 75 cts. each, bundle of five for \$3.75. \$70 per 100.

Mme. Jules Grolez. A beautiful satiny china-rose color, and pretty Rose, which should be planted extensively. 50 cts. each, bundle of five for \$2.50, \$40 per 100.

Mme. Ravary.

Buds golden yellow, open flowers nankeenyellow; a distinct and valuable garden variety. 40 cts. each, bundle of 5 for \$2, \$35 per 100.

Madame Abel Chatenay. Carmine-rose, shaded salmon-pink. 40 cts. each, bundle of five for \$2, \$35 per 100.

Mildred Grant. Cream, blushed pale rose. 40 cts. each, bundle of five for \$2, \$35 per 100.

Maman Cochet Roses. The best of all Roses for summer-flowering and cutting.

Maman Cochet (Pink). A heavy and constant bloomer; clear, rich pink changing to silvery rose; double and fragrant. Buds long, firm, full and pointed; when open are equally attractive.

Maman Cochet (White). A sport from the above valuable variety, with all its characteristics as to flowering and foliage; color a beautiful snow-white, at times tinted with the faintest suggestion of blush, the same as is often found in the "Bride."

40 cts, each, \$2 for bundle of 5, \$35 per 100

President Carnot.

Almost pure white Rose shading to soft pink, very distinct and excellent for indoor or outdoor summer-growing. 40 cts. each, bundle of five for \$2, \$35 per 100.

Perle des Jardins. Beautiful rich yellow; of large size and perfect form. Half hardy. 40 cts. each, bundle of five, \$2, \$35 per 100.

Prince of Bulgaria. Deep rose shaded salmon, flower large and full. 40 cts. each, bundle of five \$2, \$35 per 100.

Queen of Spain. Color pale flesh, darker in the center; flowers are erect on stout stems, very full and of excellent form; petals broad and leathery. 40 cts. each, bundle of five \$2, \$35 per 100.

Richmond. Similar to Liberty, but more double, intense bright crimson. 40 cts. each, bundle of five for \$2,

Viscountess Folkstone. A large, full flower of creamy pink, shading to deep salmonpink at the center; very floriferous. 50 cts. each, bundle of five for \$2.50, \$40 per 100.

William Shean.

Questionable merit. Gold Medal N. R. S., England. 50 cts. each, bundle of five for \$2.50, \$40 per 100.

White Killarney. The white variety of this grand and well-known Rose. \$1 each, bundle of five for \$5, \$90 per 100.

Ramblers and Other Climbing Roses

AMERICAN PILLAR. Has been tested severely, and believe it to be one of the hardiest roses grown. It is an exceedingly stronggrowing Climbing Rose. The leaflets are large, bright, glossy green. The flowers are single, from 2 to 3 inches in diameter, and are borne in clusters. The color is a beautiful shade of deep bright pink, with conspicuous yellow stamens. American Pillar is a much stronger grower than Carmine Pillar; the flowers are similar except in color and are produced much more freely. 50 cts. each, bundle of five for \$2.50, \$40 per 100.

CRIMSON RAMBLER ROSE. (American-grown.) We can supply extra-strong, two-year-old plants grown on their own roots, at the following prices; 4 to 5 feet long, 30 cts. each, \$2.75 for 10, \$25 per 100; 4 feet long, 25 cts. each, \$1.25 for 5, \$20 per 100.

DOROTHY PERKINS. Color lovely shell-pink, holding a long time without fading. 30 cts. each, \$1.25 for 5, \$25 per 100.

DELIGHT. The new Rambler Rose "Delight" is an improvement on Hiawatha; flowers are larger, brighter red, with white center. Flowers are borne in large clusters, from forty to seventy-five in a cluster. \$1.50 each, bundle of five for \$7.25.

EVANGELINE. This variety is distinct; single flower 2 inches in diameter; a vigorous-growing kind; flowers borne in large clusters, white with the tips of petals pink, deliciously fragrant. Extra-strong, 2-year-old, \$1.50 each, bundle of five for \$7.25.

FLOWER OF FAIRFIELD (The Everblooming Crimson Rambler). This variety is a sport from the beautiful Crimson Rambler, is similar in color, more brilliant and lasting than the old favorite. It also possesses the further advantage over the Crimson Rambler in the fact that it flowers profusely on the young wood the first year. Flower of Fairfield is a vigorous grower and free bloomer. It starts to bloom early in the spring and continues until late in the autumn. It is rightly termed "perpetual blooming." 50 cts. each, bundle of five for \$2.25, \$40 per 100.

GLOIRE DE DIJON. Another favorite of the Tea Rose class, very free-flowering and comparatively hardy, with slight protection. Color buff; orange center, very sweet-scented. Field-grown, 40 cts. each, \$2 for 5, \$35 per 100.

HIAWATHA. The flowers are single, and are of a deep, intense crimson shade with the petals shading to a pure white base. Extra-strong, 2-year-old, field-grown, flowering plants, 50 cts. each, \$2.25 for 5.

LADY GAY. The flowers are of a delicate cherry-pink color, which fades to a soft white. 35 cts. each, \$1.50 for 5, \$25 per 100; extra-strong, 3-year plants, 50 cts. each, bundle of five for \$2.25.

MARECHAL NIEL. One of the best known Climbing Roses, though unfortunately not hardy in the North. Color bright rich golden yellow. Field-grown, 40 cts. each, \$2 for 5, \$35 per 100.

NEWPORT FAIRY. Flowers, which are borne in great profusion, are single; color deep pink, lightening to the center. Strong field-grown plants, three and four shoots, 3 to 5 feet long, 40 cts. each, \$2 for 5, \$35 per 100.

PAUL'S CARMINE PILLAR. One of the most attractive Climbing Roses. Flower large and free; color rosy carmine. Twoyear-old, field-grown, 40 cts. each, \$2 for 5, \$35 per 100.

REINE MARIE HENRIETTE. Deep cherry-red, commonly called the red Gloire de Dijon. 40 cts. each, bundle of 5 for \$2, \$35 per 100.

TAUSENDSCHON. "A thousand blooms." The flowers appear from beginning of June till end of July in large, loose clusters, of a lovely soft pink color, later on the somewhat curled petals assume a carmine-rose, when in full bloom giving the appearance of two different varieties. 35 cts. each, \$1.50 for 5, \$25 per 100.

VEILCHENBLAU (Violet-blue). It has long been the desire of rosarians to secure a blue Rose. In Veilchenblau we have practically approached this color. The steel-blue flowers of this new Rose appear in large clusters, are semi-double, of medium size and keep in bloom a long time. The showy yellow stamens, contrasting with the blue flowers, give the whole a striking appearance. 50 cts. each, bundle of five for \$2.25.

WEDDING BELLS. The color is white, with the upper half of the petals soft pink. Extra-strong, 2-year field-grown flowering plants, 50 cts, each, \$2.25 for 5.

BABY RAMBLERS AND OTHER ROSES

Tree Baby Ramblers

BABY DOROTHY. (Grown as standard.) The same in habit as Baby Rambler, but the color of the flowers is bright pink. It makes an excellent pot-plant for forcing. We have secured a small quantity grown as standards. \$3 each, \$30 per doz.

MAD. NORBERT LEVAVASSEUR. (Grown as a standard.) Original Baby Rambler. 50 cts. each, \$2.25 for 5, \$40 per 100.

Bush, or Baby Rambler Roses

BABY DOROTHY (Maman Levavasseur). See description above. 35 cts. each, \$1.50 for 5, \$25 per 100.

CATHARINE SEIMETH. A white Baby Rambler Rose, larger and better flowers than the type. White, with yellowish center. 35 cts. each, \$1.50 for 5, \$25 per 100.

MME. NORBERT LEVAVASSEUR (The original Baby Rambler). A dwarf-growing, everblooming Crimson Rambler. Twoyear-old, field-grown plants, 35 cts. each, \$1.50 for 5, \$25 per 100.

For other Baby Ramblers, see our Spring Catalogue

English Manetti Stock for Indoor Grafting

We offer selected plants, with all eyes and suckers removed from the base of the stock, \$3 per 100, \$20 per 1,000.

English Moss Roses

Assorted, White, Pink, Red. Large dormant plants, from open ground, 25 cts. each, \$1 for 5, \$20 per 100.

Standard, or Tree Roses

(Grafted on Rosa Canina or Rugosa)

Large, well-grown, selected plants in the best and most service-able varieties. Hybrid Teas or Hybrid Perpetuals, 75 cts. each, \$3.50 for 5, \$6.50 for 10, \$60 per 100.

TAUSENDSCHON (standard grown). "A thousand blooms." For description, see above. 60 cts. each, \$5.50 for 10.

Pot-grown Strawberry

READY FOR DELIVERY ABOUT AUGUST, 1910

POT-GROWN STRAWBERRY PLANTS PLANTED IN THE FALL WILL GIVE A FULL CROP THE FOLLOWING SEASON

CULTURE.—Strawberries require rich, well-tilled soil: the plants should be set 15 inches apart, in rows 2 feet apart; 100 plants will plant 4 rows, 30 feet long. Firm the plants well in the soil, keep thoroughly cultivated and cut off all runners. In the middle of December cover the beds to a depth of 3 inches with salt-, meadow-hay, straw or leaves. In April, as soon as the plants show an indication of growth, push the covering away from the plants to allow them to come up through. This "mulching" protects the plants from the cold in winter and the heat in summer, keeps the fruit clean, and prevents the growth of weeds.

PERFECT AND PISTILLATE STAWBERRIES. The blossoms of Strawberries are either staminate (perfect-flowering) or are destitute of stamens and are termed pistillate (imperfect-flowering). Pistillate varieties

must have a row of some perfect-flowering sort, flowering at the same time, planted every 9 or 12 feet apart among them, or, better yet, every third or fourth plant in the row, to pollenize their blossoms. When properly pollenized, the pistillate varieties are usually the most prolific. Those marked with P are pistillate.

The Everbearing Strawberry, St. Antoine de Padoue

This variety is the finest in the alpine class and will continue fruiting till way into September. While the berries are not large, they are very rich in aromatic flavor, and of good color. If you desire strawberries out of season this is the variety to grow. Price, 50 cts. per doz., \$3.50 per 100.

General List of Pot-grown Strawberry Plants

August Luther. This variety is very popular not only with berry growers, but also in the family garden; it has a host of friends and succeeds everywhere. The berries are of good size, firm and lots of them. Extra-early.

Beder Wood. Always on hand with a big crop of most beautiful crimson berries of extra-high quality, lying in windrows all around the plant. Medium early.

Brandywine. Large, roundish, conical, glossy crimson, firm and solid; of fine aromatic flavor. Plant vigorous and productive; succeeds on any soil. Midseason to late.

Bubach. (P.) A very large berry of dark color. Productive: of fair flavor. Largely grown for market. Midseason.

Clyde. Very regular, bright scarlet berries; large, and of excellent flavor, firm, and a good shipper. Plant remarkably healthy, vigorous and productive. Season early.

Excelsior. Perfectly reliable, as its tall, thick foliage protects the bloom from danger of frocts; and this is one good point for such an extra-early variety.

Gandy. One of the very best later varieties. It is a strong, compact grower, with larger, bright, glossy crimson fruit, very uniform in shape; flesh firm and of the finest flavor.

Glen Mary. Large, bright, glossy crimson, of fine flavor. Plant strong and healthy, very prolific, and on good soil the berries are large to the end of the season. Early.

Hunn. (P.) A late variety, very productive, large size, uniform shape, dark crimson, firm flesh of the finest flavor. A strong grower and the latest sort grown.

Jessie. Very productive; fruit large, light crimson in color, firm, and flavor of the best. Early.

Marshall. Large, dark crimson; good. Plant luxuriant, but needs rich soil and careful culture. Midseason.

New Home. As late and large as Gandy, fruit a bright red color, uniformly large size. A good keeper and shipper.

New York. The berries are very large, ripening midseason. Color dark scarlet, changing to crimson when fully ripe; colors all over at once; quality first-class.

Nick Ohmer. For market, for home use or for exhibition, this is probably the greatest berry ever offered. It is a healthy, vigorous grower, and of great productiveness. The fruit is of mammoth size, beautiful in form and color, and of excellent quality.

Oom Paul. One of the largest so far introduced, and very firm for such a large berry. The plant is thrifty and open-growing, with glossy dark green foliage and will stand shipping with any of the very large varieties.

President. (P.) Almost round, very uniform in shape, borne in large clusters; flesh solid; color rich crimson; strong grower; exceedingly productive and continues bearing till end of season.

Sample. (P.) Fruit large, round and dark crimson in color, and of good quality. Late.

Schofield. Loved by everybody on account of its enormous size, bright red color, and rich aromatic flavor peculiar to itself. The plant is very large, with an extra-broad, thick leaf. Early to late.

Sharpless. Demand rich, strong soil. Plant large and vigorous; berries very large, irregular in shape, crimson, moderately firm and of good quality. Midseason.

Uncle Jim. A very valuable midseason variety of large size and wonderful productiveness; bright red color and finest quality.

Wm. Belt. The berries are as large as Bubach, more uniform in shape, just as productive, and the color is perfect.

Any of the above varieties, 50 cts. per doz., \$3.50 per 100, \$30 per 1,000. Special prices given on large quantities or varieties not quoted in this list

BEST STRAWBERRIES TO PLANT

Notwithstanding the care we take to include only varieties of sterling merit in our catalogue, the amateur finds difficulty in making a selection that will produce a bountiful supply of the finest fruit from the beginning to the end of the season. Hence the following collection, in our judgment, based on actual experience, combines in the highest degree the qualities which strawberries should have.

EARLY—Excelsior, Clyde. MIDSEASON—Marshall, Sharpless. LATE—Brandywine, Gandy

English Pot-Grown Grape-Vines, Peaches, Nectarines and Other Fruit Trees

We import these plants on advance orders only, from the best and most reliable growers in England, Thomas Rivers & Sons. Stock can be relied upon as being absolutely true to name. Rivers' Catalogue of varieties on application.

The following is a short list of fruit trees, recommended by a most successful grower in this country, for growing here under glass, and

will fruit the first year.

GRAPE-VINES

BLACK VARIETIES

Alnwick Seedling. An excellent late variety.

Appley Towers. A late black Grape succeeding Black Hamburgh; of good flavor and keeping qualities

Barbarossa. Berries round and large, bunches of immense size; late.

Black Alicante. Bunches medium, berries very large.
Black Hamburgh. The most useful and popular Grape.
Black Muscat, or Muscat Hamburgh. Excellent and richly-flavored Grape

Diamond Jubilee. Berries large, oval; late.

Gros Colman. A very handsome Grape; berries and bunches of enormous size; hangs very late.

Gros Maroc. Is now recognized as one of our finest Grapes. The berries are large, of a deep black-purple, beginning to color as early as the Black Hamburgh, and hangs as late as the Black Alicante.

Lady Downe's Seedling. One of the best late Grapes. Madresfield Court. Berries very large, of rich flavor.

WHITE VARIETIES

Buckland Sweetwater. A large, handsome berry and bunch; a good bearer and excellent. Duke of Buccleuch. A large-berried, fine, early variety. Foster's Seedling. A fine Grape; sweet flavor.
Frontignan White. Fine white Grape; abundant bearer.
Lady Hutt. Berries round and white; of excellent quality; hang-

Muscat of Alexandria. Flesh firm and rich, berries large; a

superb variety; requires heat to ripen. Prices upon any of the above Each

PEACHES

Duchess of Cornwall. An early Peach, medium size; freestone. Skin creamy yellow, with a red-striped cheek. Melting and delicious. Dymond. A large Peach, finely colored and richly flavored; hardy and prolific.

Grosse Mignonne. Large; melting and excellent; forcing well, and is one of the finest sorts in cultivation.

Hale's Early. Large; melting and very good.
Peregrine. A distinct mid-season variety. The fruits are large and handsome, with a brilliant crimson skin; the flesh rich and highly flavored.

Princess of Wales. Very large. One of the largest and best

Peaches known, and one of the most beautiful; its color is cream with a rosy cheek; melting, rich and excellent.

Thomas Rivers. A large round Peach, with a bright red cheek. Flesh firm, juicy and of good flavor; a remarkably heavy fruit. Freestone. Forces well.

Prices for above varieties, \$3, \$5 and \$7.50 each F. O. B. N. Y.

Beurre Diel. Very large, often weighing 16 to 20 ounces, melting and excellent.

Beurre Hardy. Large; fine flavor.

Doyenne du Comice. Large; a delicious Pear; forms a compact, handsome pyramid. One of our finest Pears in cultivation. The fruit is superb both in quality and appearance; a good, late variety. Louise Bonne of Jersey. Large and very good.

Pitmaston Duchess. Very large; of good quality. This Pear is good at all points in an orchard house.

Princess. A handsome Pear; a seedling from the Louise Bonne of Jersey; large; flesh melting; flavor very good; in size and color it resembles the parent.

Souvenir du Congress. Very large, weighing from one to two pounds; juicy and melting with a fine aroma
Prices for the above varieties \$3 and \$5 each F. O. B. N. Y.

NECTARINES

Advance. An early green-fleshed Nectarine: medium size: rich

and good.

Cardinal. A valuable Nectarine, adapted for forcing only; of good medium size, very brilliant in color and exquisite distinct flavor. Forms a compact sturdy tree and bears very freely. The fruit ripens ten days before Early Rivers

Chaucer. Medium to large; a fine-flavored Nectarine; green flesh; glands kidney-shaped; flowers small.

Early Rivers. Very large; skin rich crimson next to sun, light vellow marked with red on the shaded side; flesh green, tender

Humboldt. A very large Nectarine; fine flavor.

Newton. Fruit of the largest size; round; skin transparent greenish yellow, mottled and blotched with deep brilliant red on the sunny side; flesh greenish white, pink round the stone, from which it parts freely; sugary, rich and delicious.

Spencer. One of the largest Nectarines. Fruit beautifully colored

a deep brown-red, mottled on the shady side; very heavy; round; flesh light green, red next the stone; freestone. Very rich and good; late.

Stanwick Elruge. Large; melting and rich.

Victoria. Large, roundish oval, flattened at the top; greenish yellow, crimson on the sunny side; very rich and sugary

Prices for the above varieties \$3, \$5 and \$7.50 each, F. O. B. N. Y.

APPLES

Arlington Pippin. A good Apple and an abundant bearer.
Cox's Orange Pippin. Medium size; a very handsome pippin.
There is no better Apple grown.

Inere is no better Appie grown.

King of the Pippins. Medium size; very handsome.

Lord Suffield. Very large; nearly white A most abundant bearer.

Mr. Gladstone. Very early; scarlet cheek, yellow flesh; bears freely. A good early Apple.

Mother. Medium size; an American Apple, juicy, melting and

excellent.

Peasgood's Nonesuch. Very large and handsome, of good qual-One of the largest.

Red Astrachan. Large; beautiful, with a fine bloom on its rosy cheek. Has a pleasant subacid flavor. Is prolific but not hardy. Ribston Pippin. Medium size; rich, aromatic and excellent. A very well-known Apple. Rivers' Early Peach. The fruit is similar to Irish Peach but ripens earlier, and does not ripen its fruit on the ends of the branches. The tree makes a very pretty pyramid and is an abundant bearer.

dant bearer Scarlet Golden Pippin. Small; bright red, juicy and excellent. Prices for the above varieties \$3 and \$5 each F. O. B. N. Y.

Brown Turkey. Brownish purple; large, rich and excellent. Bears

most abundantly in pots and forces well.

Negro Largo. A very large and good Fig; singularly sweet and rich. Requires glass.

White Marseilles. Large; greenish white; flesh white; of the most luscious sweetness; bears abundantly and forces well. \$3 and \$5 each

Apricots, Cherries and Plums In excellent variety. \$3 and \$5 each F. O. B. N. Y.

Imported Apricot, Peach and Nectarine Trees

Hyacinth growing in Tye Hyacinth Glass

Grow Hyacinths in Glasses

For cultural directions, see page 8

To popularize the growing of hyacinth bulbs in glasses, we will again make the following special offer.

One 1st size Hyacinth and one Tall or one Tye glass...\$0 35
Two "Hyacinths and two Tall or two Tye glasses. 65
Three "three Tall or three Tye glasses. 15
Four "four Tall or four Tye glasses. 15
Five "five Tall or five Tye glasses. 1 25

Color of Hyacinth and shape of glass left to purchaser

Prices on Tall and Tye Hyacinth Glasses

Tye and Tall Hyacinth Glasses are sold in the following colors: Amethyst, blue, crystal, and green. 20 cts. each, \$2 per doz.; or two of each color (6) for \$1.

The Chrysanthemum (By Arthur Harrington)

The most practical book on the Chrysanthemum ever written. Tells about the "unrooted cutting" to the flower on the exhibition table. Price, 50 cts., postpaid.

Hyacinth growing in Tall Hyacinth

OUR TERMS

RICES named herein are subject to the following discounts: Five per cent allowed, to be deducted when cash accompanies order. To customers of approved credit, accounts are payable 30 days from date of invoice, except where special prices and terms are arranged for. Grass, Grain, Clover Seed, Implements, Fertilizers and Insecticides are subject to no discount whatever, but are strictly net cash.

ORDER EARLY.—It is very important that you should send your orders as early as possible on receipt of this Catalogue. We aim to ship all orders the same or next day after receipt, but during the busy season it is almost impossible, hence the importance of ordering early.

WE NEVER SUBSTITUTE without authority from our customers. As the season advances, however some stocks "run out," and it is sometimes impossible to procure. If, however, you give us permission to substitute, please state so in your order, and we will use our knowledge and ability to send goods of equal merit, usefulness and value.

PRICES.—As it is impossible to predict the exact demand, our prices are made subject to change without notice, and goods being unsold when order reaches us. We, however, carry very large stocks, and, if order reaches us in good season, full satisfaction may always be expected.

<u>C. O. D.</u> orders can be sent only by express. Such orders must be accompanied by a remittance in part payment to guarantee charges.

20 Per Cent Reduction in Express Rates

Under the ruling of the leading express companies, Plants, Bulbs and Seeds, packed in closed boxes or baskets, will now be carried at the "GENERAL SPECIALS" rate. This rate means a reduction of 20 per cent from the regular merchandise rates to all points where no "General Specials" exists. To points where a "General Specials" rate is in force, the companies make a special reduction. Shipments weighing less than 100 pounds receive the benefit of the rate per 100 pounds, but the minimum charge is 35 cts. For instance, where the regular merchandise rate is \$4 per 100 pounds, a box of plants or bulbs weighing 100 pounds will be carried for \$3.20, a saving of 80 cts. on one shipment.

CLUB ORDERS.—No smaller quantities will be supplied than those quoted in the list, except that three bulbs will be furnished at dozen price, 25 at 100 price and 250 at 1,000 price; but it is suggested, where these quantities are too large, that two or three friends or neighbors could combine their orders with advantage and save transportation charges.

<u>NON-WARRANTY.</u>—We give no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs or plants we send out, nor do

we guarantee the successful flowering of seeds, bulbs or plants, or that the same will be free from disease. If not accepted on these terms, the goods must be returned at once, and any money that has been paid for same will be refunded.

ARTHUR T. BODDINGTON.

When comparing Prices, always compare the Quality, too
